

As Part of the Protocol

STEP 3

PHASE 3

Ingredients

- Carbon Technology
(Extracts of Humic and Fulvic Acid)
- Clove
- Triphala
- Holarrhena (Kutaja)
- Vidanga
- Neem

Para 2

IMMUNE & DIGESTIVE SUPPORT

Developed over years of testing, Para 2 is a multi-herb blend designed for well-rounded immune system and gut support.

This herbal supplement is a combination of vidanga, neem, triphala, clove, holarrhena, and BioActive Carbon (fulvic acid extracts). The BioActive Carbon supports the herbs' delivery through the digestive tract to where they're needed.

The herbal ingredients have different modes of action to support the removal of unwanted factors. These actions may include disrupting protective mechanisms that enable invaders to linger.

On top of that, the herbs in Para 2 may support normal microbiome health, bile flow, and elimination. That could aid the removal of unwanted factors.

Key Benefits

- Supports the body's natural mechanisms for removing unwanted factors
- Promotes digestive tract health, including normal bile flow, microbiome composition, and bowel movements
- Nurtures the body's immune and antioxidant systems, aiding inflammatory balance
