

## PROTOCOL USAGE

### PHASE 5

## Key Functions

- Promotes normal immune system function and inflammatory balance
- Provides antioxidants to help maintain issue, cellular, and liver health
- Absorbs readily due to the tincture format and enables easy dosage adjustments

## Details

Bust through pathogen purging plateaus with a new troupe of herbs. IS-BART is designed to augment your immune function by supporting your parasite cleansing efforts. An array of antioxidants help neutralize free radicals and boost your ability to detox.

## How it Works

- This product contains a synergistic blend of seven herbs in organic cane alcohol. That extracts beneficial compounds from the herbs, helping maximize their potency.
- The herbs in IS-BART include *Artemisia annua* (sweet wormwood), black walnut hull, boneset, cilantro, milk thistle, oregano, and suma root. These have been carefully selected and formulated to support the body's normal immune system activity, including for vector-based concerns.
- The herbs in IS-BART may also help maintain tissue and liver health via antioxidant support. And suma root is an adaptogen to promote the body's natural homeostasis.

## Ingredients

Suma Root  
Oregano  
Cilantro  
Milk Thistle Seed  
Boneset  
Black/Green Walnut Hulls  
Artemisia Annua
