DETOX & ENERGY SUPPORT

HydrOxygen supports cellular oxygen status. That promotes tissue health and well-being from head to toe.

The molecular oxygen in this product is stabilized using a proprietary process. That enables it to be delivered to organs, tissues, and cells without dissipating.

By supporting oxygen status, HydrOxygen may have multiple benefits. It could aid microbiome health, assist normal cognitive function, support lung health, promote efficient ATP (energy) production, and facilitate normal sensitivity levels.

As the “multi-tool” of supplements, HydrOxygen can be used orally or topically. Plus, it can be used in a nebulizer (with distilled water), nasal rinse, nasal spray, or coffee enema.

Key Benefits

- Supports oxygen levels needed for normal tissue health and cellular function, including energy production
- Promotes normal microbiome health and may help deter the growth of some unwanted anaerobic organisms
- Supplements the brain’s supply of oxygen, an essential element for cognitive function

Dosage Guide*

- Standard: 10 drops twice daily
- Aggressive: Up to 15 drop three times daily
- Sensitive: 5 drops twice daily
- Child (50–125 lbs.): 4 drops twice daily
- Toddler (< 50 lbs.): Up to 4 drops twice daily

*Dosing refers to internal use.
