

HydrOxygen

IMMUNE SYSTEM SUPPORT

KEY BENEFITS

- Supports oxygen levels needed for normal tissue health and cellular function, including energy production
- Promotes normal microbiome health and may help deter the growth of some unwanted anaerobic organisms
- Supplements the brain's supply of oxygen, an essential element for cognitive function

PRODUCT DESCRIPTION

HydrOxygen supports cellular oxygen status. That promotes tissue health and well-being from head to toe.

The molecular oxygen in this product is stabilized using a proprietary process. That enables it to be delivered to organs, tissues, and cells without dissipating.

LABEL INFORMATION

Directions: Dilute 10 drops in about 8 oz. of water twice daily or as directed by a healthcare practitioner.

Warning: Please consult your healthcare practitioner before use if you are pregnant, breastfeeding, or considering use for a child.

KEEP OUT OF REACH OF CHILDREN.

§ This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

By supporting oxygen status, HydrOxygen may have multiple benefits. It could aid microbiome health, assist normal cognitive function, support lung health, promote efficient ATP (energy) production, and facilitate normal sensitivity levels.

As the “multi-tool” of supplements, HydrOxygen can be used orally or topically. Plus, it can be used in a nebulizer (with distilled water), nasal rinse, nasal spray, or coffee enema.
