

IS-BOOST

IMMUNE SYSTEM SUPPORT

KEY BENEFITS

- Promotes normal immune cell activity and antioxidant status to help protect tissues
- Contains herbs that support cellular Nrf2 pathways, promoting inflammatory balance
- Supports digestive health and detoxification pathways, aiding liver health and bile flow

PRODUCT DESCRIPTION

IS-BOOST is a tincture of 14 herbs. The product is designed to support the immune system's normal function and balance.

Whether taken on its own or with other immune support products, IS-BOOST may help promote normal immune cell activity. It may help maintain microbiome health and deter unwanted microbes, too.

LABEL INFORMATION

Directions: Dilute 1 to 2 droppers (1 to 2 mL) twice daily or as directed by a healthcare practitioner.

Warning: Please consult your healthcare practitioner before use if you are pregnant, breastfeeding, or considering use for a child.

KEEP OUT OF REACH OF CHILDREN.

§ This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

In addition, some of the product's herbs, such as cilantro leaf and licorice root, may aid inflammatory balance and tissue health. That includes supporting cells' Nrf2 pathway, a key regulator of antioxidant status and inflammation.

Herbs such as dandelion root and quassia bark in IS-BOOST also support detox protocols. They may promote digestive health, normal liver function, and bile flow.
