

CT-Iodine

ENERGY & DETOX SUPPORT

KEY BENEFITS

- Provides both the iodine and iodide forms of the mineral in the optimal ratios and amounts
- Travels protected in the body to deliver iodine in the needed form to specific body tissues
- Includes Carbon Technology to bind and remove toxins that occupy iodine receptors

PRODUCT DESCRIPTION

CT-Iodine provides support for the thyroid gland and whole body with a combination of iodine and iodide.

Research suggests certain parts of the body use these different forms of iodine preferentially. For example, iodide may be the ideal form for the thyroid gland, but iodine may be preferred for breast health. A supplement that provides both forms of iodine offers broader support.

LABEL INFORMATION

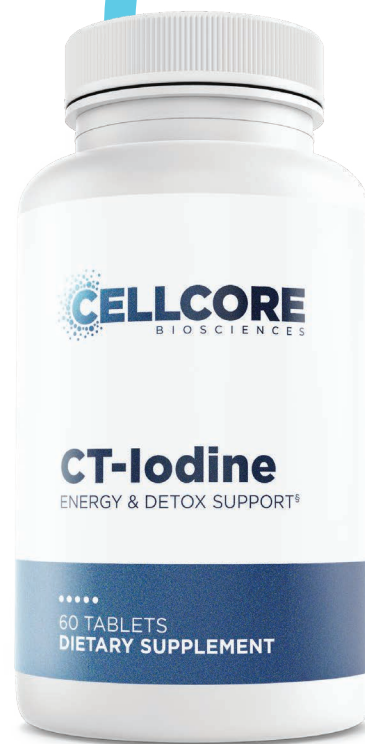

Directions: Take 1 tablet once daily or as otherwise directed by a healthcare practitioner.

WARNING: Please consult your healthcare practitioner before use if you are pregnant, breastfeeding, or considering use for a child.

KEEP OUT OF REACH OF CHILDREN.

PK0010

§ This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

The Carbon Technology in the product helps protect and deliver the iodine in the needed form in the body.

At the same time, the Carbon Technology binds and removes unwanted halogens, such as bromine and fluoride. These can interfere with iodine uptake, so removing them is essential for optimal iodine status.
