

Advanced TUDCA

DRAINAGE & LIVER SUPPORT

KEY BENEFITS

- Enhances liver and digestive function, including after gallbladder removal
- Supports Phase I and II liver detox, as well as liver drainage (sometimes called Phase III)
- Encourages glutathione synthesis to provide antioxidant support

PRODUCT DESCRIPTION

TUDCA (tauroursodeoxycholic acid) is a water-soluble bile acid. It helps stimulate the release of bile into the gut, promoting toxin elimination.

Though TUDCA is naturally found in the body's bile, it's only present in small amounts. Our TUDCA is expertly synthesized to guarantee purity and potency. Animal sources of the compound are prone to contamination with hormones, chemicals, and other toxins.

LABEL INFORMATION

Directions: Take 1 capsule twice daily or as otherwise directed by a healthcare practitioner.

Warning: Please consult your healthcare practitioner before use if you are pregnant, breastfeeding, or considering use for a child.

KEEP OUT OF REACH OF CHILDREN.

§ This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

To make Advanced TUDCA, we combine TUDCA with N-acetyl cysteine (NAC); humic and fulvic acid extracts; and melatonin to maximize the potency. Melatonin serves as a driver to help deliver the product into target areas, particularly the liver. In this formulation, it won't cause sleepiness.
