CT-Zyme

DIGESTIVE & DETOX SUPPORT

KEY BENEFITS

- Boosts energy, digestion, and immune function
- Enhances nutrient absorption and utilization
- Helps reduce gastrointestinal difficulty

PRODUCT DESCRIPTION

CT-Zyme is a new combination of digestive enzymes powered by Carbon Technology that provides next level digestive support. Digestive enzymes work by breaking chemical bonds within carbohydrates, fats, and proteins to allow the body to make use of those nutrients.

Healthy digestion is key for optimal nutrient uptake from food, maximizing energy levels, and maintaining a properly functioning immune system. However, the body does not naturally produce all digestive enzymes in useful amounts to fully digest consumed foods.

LABEL INFORMATION

Directions: Take 2 capsules twice daily or as otherwise directed by a healthcare practitioner.

WARNING: Please consult your healthcare practitioner before use if you are pregnant, breastfeeding, or considering use for a child.

KEEP OUT OF REACH OF CHILDREN.

§ This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Aging, digestive problems, specific medications, and stress can also interfere with the body's enzyme production, making digestion more challenging.

Digestive enzymes can help to improve nutrient utilization and are critical to keeping the digestive tract running smoothly. Each enzyme functions at a particular pH, making this product effective at different stages of digestion as it passes through the gastrointestinal tract.

Supplement Fac Serving Size 2 Capsules Servings Per Container 60	:ts
Amount Per Serving	
Enzyme Blend 804 Amylase (Aspergillus oryzae)	l mg*
Protease 4.5 (Aspergillus oryzae)	
Phytase (Aspergillus niger)	
Beta Glucanase (Trichoderma reesei)	
Xylanase (Trichoderma sp.)	
Bromelain (Ananas comosus)	
Cellulase (Trichoderma reesei)	
Pectinase (Aspergillus niger)	
Alpha Galactosidase (Aspergillus niger)	
Hemicellulase (Aspergillus niger)	
Lipase (Rhizopus oryzae)	
Proprietary Blend 13 Humic Acid, Fulvic Acid, Citric Acid 13	3 mg*
*Daily Value not established.	

Other ingredients: HPMC (Capsule), Polysaccharides, Rice Dextrin, Microcrystalline Cellulose.
