OBJECTIVE

React Native Developer with 2+ years of professional experience building and maintaining production-level mobile applications. Skilled in developing scalable features, debugging complex issues, integrating REST APIs, and managing Play Store deployments. Passionate about delivering high-performance mobile solutions and continuously improving development workflows.

EDUCATION

Bachelor of Computer Science, Khawaja Fareed University of Engineering and Information Technology 2021 - 2025

Intermediate, Superior Group of Colleges 2018 - 2020

Matric, Govt. Colony Secondary School 2016 - 2018

SKILLS

Programming	JavaScript, TypeScript, Next.js, Android Studio
Mobile Development	React Native, Android, Play Store Deployment
Backend	REST APIs, Firebase
AI-Assisted Development	Claude Code, Antigravity, AI code generation, debugging assistance
Tools	Git, GitHub, Notifee, Postman

EXPERIENCE

React Native Engineer May 2026 - Present
HelloWorld Technologies

- Developed and maintained scalable cross-platform mobile applications using **React Native** and **TypeScript** for international clients.
- Worked on **Dinehome**, a Norway-based food delivery ecosystem consisting of **Dinehome User App**, **Dinehome Rider App**, and **Dinehome Admin App**. Contributed to feature development, bug fixing, performance optimization, and production deployments.
- Contributed to **Aktospace**, a US-based AI-powered wellness platform that measures users' stress levels through AI-powered facial detection and recommends personalized yoga and breathing exercises. Worked on the **mobile application**, **admin panel**, and implemented backend functionality for a platform feature.
- Worked on the **Locum Application**, a UK-based healthcare platform connecting medical professionals with healthcare organizations. Developed and improved mobile application UI/UX features and functionality.
- Contributed to **The Bravo Life: Delulu Sprint**, a US-based lifestyle application where users visualize and simulate achieving their desired goals through immersive experiences.
- Collaborated with designers, backend developers, and product teams to deliver scalable, production-ready solutions.
- Participated in testing, debugging, optimization, and deployment processes for mobile applications.

React Native Developer
Semantic Solutions

Mar 2025 - Feb 2026
Rahim Yar Khan, PK

- Developed and maintained production-level mobile applications using React Native and TypeScript.
- Contributed to **ForexCrow**, a cross-border money exchange platform handling CAD and NGN transactions.
- Implemented secure API integrations, optimized performance, and improved application stability.
- Worked on the **PELP App** (English Learning Platform), fixing critical production bugs and implementing new features.
- Managed app build generation, testing, and deployment to the Google Play Store.
- Collaborated with backend developers and designers to deliver scalable solutions.

PROJECTS

Brain Tumour Predictor App. Developed a mobile application using React Native integrated with a CNN-based deep learning model to classify MRI scans into meningioma, glioma, pituitary tumor, or no tumor. ([Github Repo](#))

Exp Reminder App. Developed an expiry reminders application, achieving **200+ downloads**. ([PlayStore Link](#))

TODO App. Built a collaborative TODO application allowing users to share task cards with friends. ([Github Repo](#))

COURSES

- **Meta Certified React Native** ([Coursera](#))

Jun 2023 – Jul 2023
