It will become easier and easier as you get into better shape and begin to see results. Before long, you will have created a healthy habit that will pay dividends for years to come. **We recommend 25-30 minutes
of exercise training on each workout day.**

To keep things simple, do three sets, 30-60 seconds of each exercise when alternating exercises. We recommend picking three exercises and rotating through three sets of each, then choosing another three exercises and rotating through three sets of those. Repeat this process until you've completed 25-30 minutes of exercise.

TRACK YOUR RESULTS (FOR PERSONAL USE ONLY)

Before you get started, don't forget to take before pictures and measurements. By documenting your progress every week, you'll notice even subtle changes that are sure to motivate and encourage you to keep going.

BEFORE & AFTER PICTURES

Set up your photos using the same clothing, background, lighting and poses each week so it's easier to compare and track your progress! You can use the self-timer on your phone to take your photos, or get a friend to help.

Tips for Taking Credible Before and After Photos

- **DRESS AND POSE APPROPRIATELY:** We recommend wearing fitted clothing to best demonstrate your overall transformation. It's important to provide a clear view of your stomach area, so don't suck anything in! Maintain a neutral posture in both photos: don't slouch in your "before" photo, then stand straight in your "after" photo.
- **REQUEST HELP:** Selfies will not capture the details you want to document for your "before" picture. Use a tripod and an auto-timer on your camera, or ask a friend to stand in as your photographer.
- **LOCATION, LOCATION, LOCATION:** We recommend you pose in front of a blank, solid-coloured wall. The fewer distractions the better; after all, this is about you and your transformation journey! Be sure to choose a location where you will be able to recreate the same conditions for future photos that track your progress and your results.
- **TAKE MULTIPLE PHOTOS:** You'll want to make sure to capture every angle with these pictures. Take enough photos to show your body clearly from the front, the back and the side at a minimum. The more pictures you take, the better.
- **BE CONSISTENT:** Remember to take progress photos at regular intervals throughout your transformation journey. Be consistent with your location and the clothing you pose in. This will help to highlight the changes from one photo to the next even more clearly.
