

MOUTH RINSE

oral care

PRODUCT DESCRIPTION

Peace out to sickly sweet, artificially flavored mouthwashes. Modere Mouth Rinse is flavored with natural peppermint oils and we use stabilized chlorine dioxide to help kill the bacteria that cause bad breath — not alcohol. Finally, a Mouthwash that doesn't feel like a barbaric burning torture. The result is a happy, clean mouth, fresh breath and no burn. Now, the recommended 30 seconds is actually achievable. Kills the dragon breath, but not your mouth.

ABOUT

Use after Modere Toothpaste to complete your dental hygiene regimen.

BENEFITS OF MOUTH RINSE

- Alcohol free
- Eliminates bad breath
- Leaves an invigorated mouth minty fresh
- Helps maintain healthy gums and teeth
- Fights bacteria that cause bad breath
- Oxidizes and dissolves food films for effective cleaning.

DIRECTIONS FOR USE

Use as often as desired... although we highly recommend using it every morning and night, as well as after a super garlicky dinner (unless you live around vampires). Thoroughly rinse mouth with one capful for 30 seconds.

Pack size: 500mL.

KEY INGREDIENTS

Sodium chlorite (stabilized chlorine dioxide)
Used to clean and purify, to kill bad breath and keep odor-causing bacteria at bay

No alcohol, no artificial flavors, no artificial dyes — As far as our mouthwash is concerned, what is a key ingredient is what is not in the formula. What makes our mouthwash so special is the simplicity and lack of fake or harsh ingredients.

INGREDIENTS

Water (aqua), sodium chlorite (stabilized chlorine dioxide), flavor.
