MODERE CELLPROOF EYE CREAM

Personal Care | Skin

Product Description

It's frustrating when you feel youthful inside but your eye area is beginning to tell a different story. Modere CellProof Eye Cream combines our award-winning BioCell Collagen® CG with energizing ginger, pomegranate, and natural caffeine to smooth and firm the look of fine lines and wrinkles for a radiant, youthful appearance. Unlike other eye creams that only target one or two signs of tired eyes, CellProof Eye Cream proactively addresses all of the most common visible signs of aging with ingredients clinically proven to work. See rapid results. Because you deserve to look as vibrant as you feel.

Product Benefits

- Lifts and firms eye area for a youthful appearance
- Visibly improves the look of dark circles and puffiness
- Reduces the appearance of fine lines and wrinkles
- Provides intense hydration for delicate eye area
- Evens skin tone and texture around the eyes
- Soothes and calms skin appearance
- Promotes the look of elasticity

Product Details

As collagen begins to decrease in your 20s, it's most noticeable in the skin around your eyes, which is 10x thinner than the rest of your skin. You begin to see puffiness, dark circles, sagging, and wrinkles, and realize you look older than you feel. You've probably even tried a few eye creams only to be disappointed with the results.

Modere CellProof Eye Cream is different. It contains a natural collagen HA (hyaluronic acid) matrix comprised of collagen micro-molecules that are the perfect size for easy absorption into surface layers of the skin around your eyes. Mirroring the natural components of your skin, this patented matrix is proven highly effective in third-party human clinical trials. CellProof Eye Cream also utilizes ginger to help even skin tone and reduce the appearance of dark circles, caffeine from coffee extract to visibly lift and firm, and antioxidant pomegranate extract to combat environmental stressors.

Key Ingredients

- Patented BioCell Collagen® CG (cosmetic grade)
- Natural caffeine from coffee extract
- Antioxidant pomegranate extract
- Energizing ginger extract

INGREDIENTS: Water (aqua), glycerin, sodium acrylate/sodium acryloyldimethyl taurate copolymer, leuconostoc/radish root ferment filtrate, tocopheryl acetate, persea gratissima (avocado) oil, hydrolyzed chicken cartilage extract*, C15-19 alkane, hydrogenated vegetable oil, hydroxyacetophenone, limnanthes alba (meadowfoam) seed oil, carbomer, tocopherol, aminopropyl menthyl phosphate, polyglyceryl-6 laurate, xanthan gum, caffeine, tetrasodium glutamate diacetate, polyglycerin-6, punica granatum seed extract, sorbitan oleate, coffea arabica (coffee) seed extract, aloe barbadensis leaf extract, sorbitan isostearate, zingiber officinale (ginger) root extract, lecithin, melissa officinalis leaf extract, maltodextrin, sodium benzoate, sodium hydroxide.

MODERE CELLPROOF EYE CREAM

Modere CellProof Eye Cream is a great quick fix for tired-looking eyes. With just the tap of a finger, you'll look instantly reawakened after a late night or a cocktail too many. When used twice daily, you'll improve the most common visible signs of eye aging. For an even more dramatic transformation, pair with the complete Modere CellProof line including Infusion Mask, Serum, Moisturizer and Lip Complex, plus Liquid BioCell® for a whole-body approach to a more vibrant you.

Directions/Usage

After cleansing, dot around eye area and gently pat into skin, avoiding direct contact with the eye. Apply twice daily, morning and night.

CAUTION: Discontinue use if irritation occurs. Avoid contact with eyelids and eyelashes. Do not apply directly to the upper or lower eyelid. If product accidentally enters eyes, flush with plain water or saline solution.
