

MÖDERE® FAQs

MODERE AXIS™ TREBIOTIC WITH MICROBIOME MATRIX

Health & Wellness | Targeted Health

How do I use Modere Axis™ Trebiotic?

- It should be taken once a day. TreBiotic's nutraceutical beadlets can be consumed directly by mouth, sprinkled on food or mixed into a smoothie to make your healthy food choices even more impactful.

What is a postbiotic?

- Postbiotics are bioactive compounds generated by prebiotics and probiotics through fermentation in the gut. Including a postbiotic in a probiotic gut health formula helps to further optimize its benefits. Modere Axis™ Trebiotic uses EpiCor® GI+, a whole food fermentate yeast product, as a postbiotic. It supports healthy levels of butyrate to support the gut lining and tight junctions to help optimize micronutrient absorption, immune support and overall wellness.*

How many viable cells are in each serving?

- 10 billion viable cells are added at the time of manufacture. Viable cells are active probiotic bacteria.

What probiotic strains does it contain?

- It contains Lactobacillus plantarum DR7, Pediococcus acidilactici and Lactobacillus brevis.

Can this be taken with Modere Probiotic?

- Yes, the two products contain different strains of probiotics and can be taken together for a greater variety of probiotic strains and benefits.

Can I take this at the same time as other products in the Axis™ line?

- Yes, this can be taken at the same time or mixed with other products in the Axis™ line. Taking TreBiotic with Modere Axis™ PhytoGreens, PhytoReds and PhytoGolds is ideal for supporting a healthy microbiome and immune health.*

Does Modere Axis™ Trebiotic have a flavor?

- No, it is unflavored and is almost tasteless so that it can easily be taken straight to mouth, sprinkled on food or mixed into a smoothie.

Is it safe to use while pregnant?

- We recommend consulting with your doctor prior to use if you are pregnant or breastfeeding.

Can children take it?

- Modere Axis™ Trebiotic is formulated specifically with adults in mind. We do not recommend giving it to children.

How should it be stored?

- Keep tightly closed and store in a cool, dry place.

Is this gluten-free?

- Yes, it is.

***These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.**

Is it non-GMO?

- Yes, it is.

Is it sugar-free?

- Yes, it is sugar-free and suitable for those on a keto diet.

Is it dairy-free?

- No, it contains milk and may not be suited for those sensitive to dairy products.

Is it suitable for vegetarians?

- Yes, it is.
