- ▲ **REDUCE FAT CELL FORMATION\***

In short, you're about to experience a revolutionary new way to burn fat and lose inches.\*

## TAKE 3 PRODUCTS

**Activate:** Jumpstart your goals by mixing one stick pack of Activate with 8 oz of water for three consecutive days each month. Activate is a monthly cleanse with natural, plant-based ingredients such as aloe vera, apple pectin and psyllium seed husk, formulated to eliminate toxins and rejuvenate cellular health. Best of all, no fasting is necessary. We recommend using Activate in the evenings for a gentle cleansing experience.\*

**Burn:** Take one capsule of Burn three times daily with a large glass of water and a meal or snack. Burn is a thermogenic, meaning that it helps stimulate your metabolism through cellular heat production. We recommend taking your first capsule in the morning with breakfast, then a second capsule 3-4 hours later with a morning snack or lunch, and taking one more capsule after another 3-4 hours with an afternoon snack. This will increase your calorie burn and energy levels throughout the day.\*

**Trim:** Take one tablespoon of Trim each morning. Your daily dose of Trim can be taken alone or added to coffee, a smoothie or any other healthy breakfast food you usually enjoy. This award-winning formula contains CLA to improve muscle tone and support fat metabolism, along with patented Liquid BioCell® Collagen to restore youthful skin and support joint and muscle fitness and connective tissue health.\* Trim is available in 4 delicious flavors: Chocolate, Coconut Lime, Vanilla and Lemon.

**We recommend  
25-30 minutes of  
exercise training on each  
workout day.**

To keep things simple, do three sets, 30-60 seconds of each exercise when alternating exercises. We recommend picking three exercises\* and rotating through three sets of each, then choosing another three exercises and rotating through three sets of those. Repeat this process until you've completed 25-30 minutes of exercise.

### TRACK YOUR RESULTS

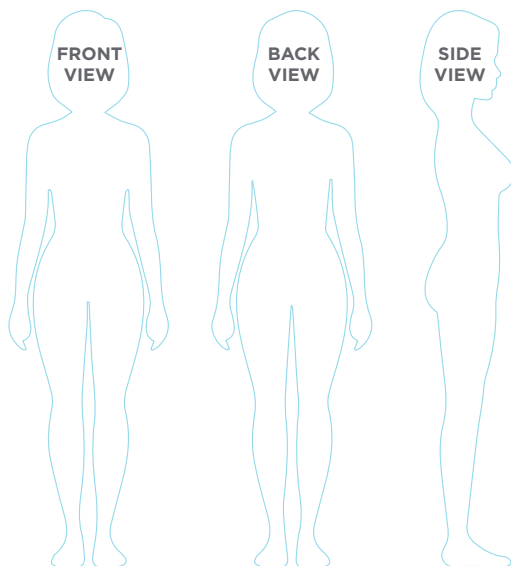

---

Before you get started, don't forget to take before pictures and measurements. By documenting your progress every week, you'll notice even subtle changes that are sure to motivate and encourage you to keep going.

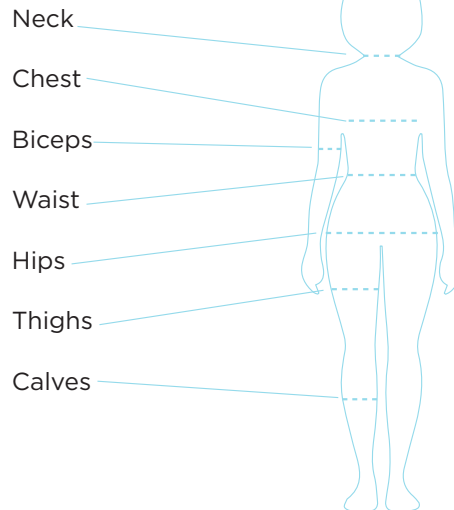

#### BEFORE & AFTER PICTURES

Set up your photos using the same clothing, background, lighting and poses each week so it's easier to compare and track your progress!

You can use the self-timer on your phone to take your photos, or get a friend to help.

#### MEASUREMENTS

DATE:					
	START	WEEK 1	WEEK 2	WEEK 3	WEEK 4

L THIGH / R THIGH	/	/	/	/	/
L CALF / R CALF	/	/	/	/	/

#### Tips for Taking Credible Before and After Photos

- **DRESS AND POSE APPROPRIATELY:** We recommend wearing fitted clothing to best demonstrate your overall transformation. It's important to provide a clear view of your stomach area, so don't suck anything in! Maintain a neutral posture in both photos: don't slouch in your "before" photo, then stand straight in your "after" photo.
- **REQUEST HELP:** Selfies will not capture the details you want to document for your "before" picture. Use a tripod and an auto-timer on your camera, or ask a friend to stand in as your photographer.
- **LOCATION, LOCATION, LOCATION:** We recommend you pose in front of a blank, solid-colored wall. The fewer distractions the better; after all, this is about you and your transformation journey! Be sure to choose a location where you will be able to recreate the same conditions for future photos that track your progress and your results.
- **TAKE MULTIPLE PHOTOS:** You'll want to make sure to capture every angle with these pictures. Take enough photos to show your body clearly from the front, the back and the side at a minimum. The more pictures you take, the better.
- **BE CONSISTENT:** Remember to take progress photos at regular intervals throughout your transformation journey. Be consistent with your location and the clothing you pose in. This will help to highlight the changes from one photo to the next even more clearly.
