MODERE CELLPROOF SUNLESS TANNING FOAM

Personal Care | Skin

Product Overview

The only 100% natural self-tanner infused with BioCell Collagen® CG, Modere® CellProof Sunless Tanning Foam is a lightweight, quick drying formula that works with skin's own protein to develop beautiful, authentic-looking, true colour in just 4-8 hours. Collagen/HA Matrix™ Technology delivers collagen peptides and hyaluronic acid to hydrate and moisturize for a more even, streak-free application while promoting visibly younger looking skin.

Product Benefits

- Develops natural-looking, streak-free colour in 4-8 hours
- Hydrates and moisturizes for long-lasting true colour
- Helps smooth skin for improved texture and even application
- Fades the appearance of skin imperfections
- Helps even the appearance of skin tone
- Promotes vibrant, youthful-looking skin
- Promotes the look of elasticity

Product Details

Dermatologists and skin care professionals agree that avoiding prolonged sun exposure is the best way to avoid visible signs of premature aging, but it's hard to pass up the healthy-looking glow of a natural tan. With Modere® CellProof Sunless Tanning Foam you can have it all — beautiful colour and visibly younger looking skin — thanks to 100% natural DHA and erythrulose self-tanners, plus patented BioCell Collagen® CG.

Modere CellProof Sunless Tanning foam is a quick drying, clean label formula that won't transfer to clothes and features a natural coconut vanilla aroma to make you feel like you're in the tropics. It is safe for both your face and body. Keep skin looking youthful in between applications with Modere CellProof Body Firming Foam and the rest of the Modere CellProof collection.

Directions/Usage

Pump foam into hands and apply in circular motions on clean, dry, exfoliated skin. Wash palms after application and wait until skin feels dry to the touch before getting dressed. Layer additional applications for a deeper shade and/or maintenance.

Caution: This product does not contain a sunscreen and does not protect against sunburn.

Key Ingredients

- BioCell Collagen® CG
- DHA
- Erythrulose
- Coconut extract
- Vanilla extract

INGREDIENTS: Aqua, dihydroxyacetone, propanediol, decyl glucoside, glycerin, erythrulose, sodium olivate, sodium metabisulfite, hydroxyacetophenone, 1,2-hexanediol, caprylyl glycol, caprylic/capric triglyceride, magnesium stearate, prunus armeniaca (apricot) fruit extract, vanilla planifolia fruit extract, cucumis melo cantalupensis fruit extract, vaccinium macrocarpon (cranberry) fruit extract, musa sapientum (banana) fruit extract, santalum album (sandalwood) extract, butter extract, pimpinella anisum (anise) fruit extract, pyrus malus (apple) fruit extract, cocos nucifera (coconut) fruit extract, hydrolyzed chicken cartilage extract*, citric acid, sodium hydroxide, potassium sorbate
