- Offers relief from symptoms of bloating, flatulence & occasional heartburn*
- Supports healthy digestive function*
- Provides bromelain from pineapple to support protein digestion
- Amylase helps you digest carbohydrates*
- Lactase helps you digest dairy products*
- Lipase assists in fat digestion*
- Protease helps you digest proteins*
- Cellulase assists in cellulose digestion*

Product Details

Modere Digestive Enzymes contain a specific selection of digestive enzymes to assist in the efficient digestion of protein, carbohydrates, fats and fibrous materials. This formula also contains fennel and ginger to aid in soothing the digestive tract.*

Digestive enzymes aid the body in assimilating and absorbing an array of nutrients. The majority of digestive enzymes are produced by the pancreas and small intestine where molecules are broken down into nutrients for absorption into the blood stream for delivery to the body's cells. When foods are not properly broken down in the digestive tract your cells are not given all the nutrients that food has to offer.

Use Digestive Enzymes to help properly digest your food and live clean.*

Directions/Usage

Take two (2) capsules once daily immediately after the main meal of the day.

Key Ingredients

- Bromelain
- Ginger root extract
- Fennel seed
