

MÖDERE® FAQs

BODY BUTTER

Personal Care | Restore

What is the source of squalene in Modere Body Butter?

- Squalene is a natural substance produced within our own skin that offers protection and hydration. Modere uses squalene sourced from olives, but this ingredient can also be found in rice bran, wheat germ and palm trees, as well as shark livers.

Will Body Butter leave my skin feeling greasy?

- Body Butter was hand-crafted with ingredients specifically chosen to hydrate the skin and leave it with a silky, not greasy, after feel.

Does Body Butter leave a shimmer on the skin?

- No, Body Butter does not contain ingredients that leave an artificial shimmer on the skin.

How would you describe Body Butter's fragrance?

- The fragrance is a combination of caramel, cotton candy and sugary fig, leaving the skin lightly scented.

Is Body Butter gluten-free?

- Yes, Body Butter is gluten-free.

Can I use Body Butter on my face?

- Body Butter may be used on your face. However, for the best results we recommend Modere skincare products specifically formulated to hydrate facial skin. Our skincare line includes products designed for your face that target specific needs, with a lightweight feel.

Will Body Butter protect me from sunburn?

- Body Butter does not contain ingredients for sun protection. Please layer an appropriate SPF over your Body Butter application for sun protection.
