HI-LINE 6 FRAME DOOR

R&D, 2018

The Hi-Line 6 Frame Door, developed by the Dada Engineered R&D division, is a compact and linear project that defies traditional kitchen standards, providing versatility in terms of composition possibilities. Unlike the Hi-Line, it features a technical cabinet door with a perimeter profile available in three metallic finishes, giving it a more modern and contemporary appearance. The cabinet doors can also be crafted from coloured glass in a wide range of tones. The frame of the door is made of iris, bronze or pewter aluminium. The upper part of the door is shaped to ensure an ergonomic grip. The side "frame" panel runs seamlessly with the doors.

FINISHES

Island

eucalyptus rays doors with aluminium border pewter finish, pewter finger recessed and skirting, Vulcano MDi by Inalco top, nebula steel multitank sink, black stained oak slated HL6 Frame Door snack table, top mounted

Atelier columns

Slate structure, pewter metal lacquered external doors, pewter handles mod. Tivalì & more, pewter skirting h.60

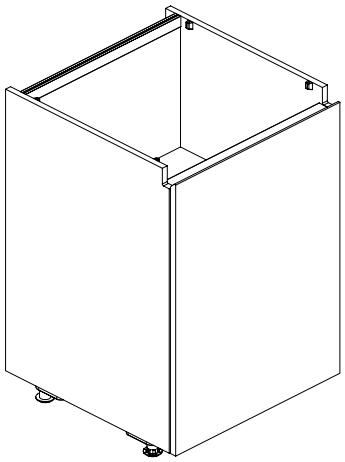

PLUSES

- Design by R&D Dada Engineered
- All Hi-Line 6 unique features
- Frame Door with dedicated finishes
- Shaped upper door profile to improved grip

Finger recess opening kitchen

H. unit structure = 828 mm
H. door = 797 mm
H. kitchen with 60 mm skirting = 888 mm
H. kitchen with 100 mm skirting = 928 mm
TH. door = 19 mm
D. Base = 331-595-745mm

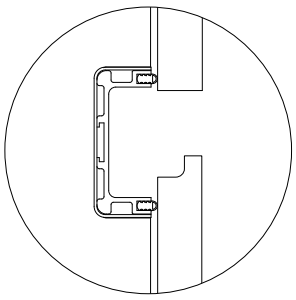

Horizontal finger recesses are used to open doors, drawers and pan drawers without handles. The finger recess can be selected as an opening method also for lower drawers and pan drawers, or a mechanical or electric push-pull opening can be selected as an alternative. Available finishes are Iris, Pewter, Bronze or matt lacquer in range colours.
