HI-LINE 6

FERRUCCIO LAVIANI, 2012

Hi-Line 6 by Ferruccio Laviani is not just a kitchen; it's a space meant to be lived in. The squared cabinet door with a minimalistic design allows for the creation of versatile and ever-changing compositions, drawing from the widest range of finishes in the collection. It features clean and linear designs, meticulous attention to detail, and a focus on construction quality. The kitchen combines technology with precisely defined volumes, creating an organised space with a sense of geometric harmony. "Hi-Line 6 is the more informal version of Hi-Line, for those seeking a practical kitchen that can easily adapt even to small spaces. Many finishes and different combinations, but always with the quality and style of Hi-Line." Ferruccio Laviani

FINISHES

Island

special metallic stardust lacquered doors and side panels, Pietra Grey stone top, pewter finger recess and skirting

XY system
