Transforming the Outdoor Living Experience®

DYNAMIC INNOVATION TRUSTED SOLUTION

Since 1984, Digger Specialties, Inc. (DSI) has been a trusted leader in the outdoor living industry, manufacturing innovative, high-quality products designed to transform spaces and elevate lifestyles. With a legacy of excellence spanning four decades, DSI continues to deliver solutions that inspire confidence and creativity.

From the classic appeal of traditional baluster railing to the sleek modernity of cable railing, the open elegance of glass railing, the innovative security of mesh railing, and the versatility of ScreenRail, Westbury Aluminum Railing offers a style for every vision. Built for beauty, durability, and functionality, our products seamlessly combine form and performance to enhance outdoor living.

Imagine the possibilities—your home is your masterpiece. With Westbury Aluminum Railing, DSI helps you create outdoor spaces that stand the test of time while showcasing your unique style.

POWDER COATING PROCESS

Exclusive DSI Powder Coating Process

DSI is an industry leader in Powder Coated Aluminum Products. State-of-the-art technology is used to provide a high-quality and durable finish that is more resistant to the effects of impacts, chemicals, ultra-violet light, moisture, and extreme weather conditions.

The process begins with a system certified by the Powder Coating Institute (PCI) and continues with the American Architectural Manufacturers Association (AAMA) / Fenestration and Glazing Industry Alliance (FGIA) verifying our Powder Coating. These stringent processes provide homeowners with peace of mind in their investment.

Our Aluminum Lifetime Limited Warranty includes a Fade Warranty as well as a Salt and Abrasive Environments Warranty providing one of the best warranties in the industry.

1
The raw premium-grade aluminum is inspected to be free of blemishes and is not exposed to the outdoor elements.

2
The product enters a heated cleaning stage to remove extrusion debris and fabrication oils.

3-6
Clean: City water rinse
Cleaner: Recycling reverse osmosis water rinse
Cleanest: Pure reverse osmosis water rinse
Sealer: Dried-in-place aluminum sealer

7-8
A 200 MPH air blast removes water drops from the pre-treated aluminum.
A convection oven completes the dry-off process.

9
Powder is applied with 18 automated and 2 manual spray guns. Compressed process air is dried to -35°F Dew Point for superior adhesion.

10
The powder coating is then bonded and adhered to the aluminum substrate in a 400 degree cure stage.

TUSCANY

GATES & HARDWARE

DSI offers matching gates for most Westbury® Aluminum Railing styles*. Gates allow the flexibility to “enclose” your railing area, keeping your family safe from stair hazards and your pets limited to your deck or patio area. All Westbury® C Series gates, with the exception of Veranda (a welded gate), are adjustable.

*We suggest a Tuscany Gate with the Montego Railing.
