

MTC CELEBRATION CAKE

By Leah Milburn-Clark

FINAL CONSTRUCTION

The final construction order is (from base to top) *Emerald City* – Beaded Curtain layer, *Torch the Place* – Piano layer and the *Home, I'm Darling* – Teapot layer.

1. Mark out on the Beaded Curtain layer where the Piano will sit. Insert 4 dowels, the height of the Beaded Curtain cake, inside each corner of the mark out. Insert a 10-inch dowel in the centre of the mark out to act as the centre pole of the cake.
2. Mark out on the Piano layer where the Teapot will sit. Insert 4 dowels, the height of the Piano cake, at equal points inside the mark out.
3. Align the hole in the base of the Piano cake board with the centre pole sticking out of Beaded Curtain layer. Press the Piano cake gently down the pole until it is sitting flush with the Beaded Curtain layer and the centre pole has stuck through the top.
4. Align the hole in the base of the Teapot cake board with the centre pole sticking out of the Piano layer. Press the Teapot cake gently down the pole until it is sitting flush with the Piano. The centre pole should come about half way up the teapot and should not stick through the top.
