- This design provides you with an aesthetic image of how your room could look along with an estimate of the goods required.
- Before you/your contractor carry out any works a survey should be carried out.
- This is in order to confirm measurements are correct as well as identify the location and the need for any changes to the design to allow for pipework, uneven or re-plastered walls, electrics etc and to ensure that any additional works that may be required that may impact the plan, are taken into account.
