NATURE'S SUNSHINE®

Rejuvenaid

Dual Pathway Nitric Oxide Generator for Vasodilation and Cardiovascular Health

Enjoy youthful vitality with Nature's Sunshine's Rejuvenaid a natural, healthy way to achieve and maintain peak physical and mental performance with higher levels of vigor.

Clinical studies have shown that higher levels of Nitric Oxide (NO)—a signaling molecule that improves blood flow and circulation by relaxing arteries and blood vessels—are associated with increased vitality, physical performance, stamina, recovery, mental acuity, sexual performance and lower blood pressure.

Made in the endothelial layer of blood vessels and arteries, NO is quickly used or oxidized within the body and must be replaced constantly. A sedentary lifestyle, suboptimal diet and age can each negatively impact NO production. (By age 40, the human body produces only half the nitric oxide it did during teen years.)

BENEFITS

- Improved energy production*
- Increased exercise capacity and stamina*
- Supports optimal brain circulation*
- Healthy sexual performance*
- Cardiovascular and heart health function*
- Healthy blood pressure*
- Decreased body fat*
- Overall vascular health and blood vessel elasticity*
- Improved blood flow to vital organs*
- Gut health and related immune function*

RECOMMENDED USE

Empty the contents of packet of into 12 oz. of water, mix and drink. Use twice daily to recapture or sustain youthful vitality, improve physical and mental performance with higher levels of vigor.

HOW IT WORKS

A natural, clinically studied, nitric oxide-generating supplement, Rejuvenaid safely produces and sustains superior levels of NO. Unlike other NO products, this patent-pending formula uses a dual system featuring a proprietary beet root extract along with L-Arginine. This dual-pathway approach frees up the body's ability to produce its own NO while using the ingredients to generate even more NO. Rejuvenaid also features a proprietary, polyphenol-rich antioxidant blend called Herbal Shield that offers select vitamins to help sustain higher levels of NO and support circulation.

FREQUENTLY ASKED QUESTIONS (FAQs)

HOW SOON CAN I EXPECT THIS PRODUCT TO START WORKING?

You may feel it working within 30-60 minutes after consumption.

CAN I TAKE REJUVENAID IF I AM ALREADY TAKING A PRESCRIPTION MEDICATION?

As with all nutritional supplement programs, we recommend that you consult a physician prior to use.

CAN THIS PRODUCT HELP LOWER BLOOD PRESSURE?

Ingredients in Rejuvenaid provide a rich source of nitrate that your body converts into nitric oxide, an important molecule that regulates the circulatory system. Maintaining high levels of nitric oxide in your body signals your blood vessels to relax and open, improving circulation throughout your body and lowering blood pressure.

HOW CAN I USE THIS PRODUCT TO IMPROVE MY FITNESS RESULTS?

The increased amounts of nitric oxide produced in your body as a result of Rejuvenaid's dual-pathway delivery system can support fitness goals by allowing your cells to produce greater energy with less oxygen. A more open vascular system allows for optimal and uniform delivery of much-needed nutrients and oxygen to your muscles. This increases the energy efficiency of your cardiovascular system. Think of it like getting better gas mileage in your vehicle.

HOW DOES REJUVENAID SUPPORT COGNITIVE AND MENTAL FUNCTION?

Declines in mental and cognitive function are often the result of blood vessels in the brain becoming less efficient at dilating (opening up). A lack of dilation means that much-needed nutrients and oxygen are not adequately reaching your brain cells. Rejuvenaid allows these blood vessels to relax and dilate, allowing for optimal delivery of critical nutrients to support brain function.

HOW DOES THE PRODUCT SUPPORT HEALTHY SEXUAL FUNCTION?

Rejuvenaid's ingredients cause a powerful production of nitric oxide, which helps to open constricted blood vessels throughout the body. Opening constricted blood vessels is the same mechanism used by many prescription drugs that are given for healthy sexual function.

HOW CAN REJUVENAID HELP DECREASE BODY FAT?

Rejuvenaid delivers a significant amount of dietary nitrate from red beet root. Higher levels of dietary nitrate can optimize how your body processes carbohydrates. Scientific studies have shown that this optimization can lead to a loss in body fat.

HOW DOES THIS PRODUCT HELP SUPPORT GUT AND IMMUNE FUNCTION?

Higher levels of nitric oxide support the growth and function of beneficial gut bacteria. Also, betaine (a substance in red beet root) has potent anti-inflammatory effects throughout the body.

Supplement Facts	
Serving Size 1 Stick Pack (11.2 g)	
Amount Per Serving	% Daily Value**
Calories	40
Total Carbohydrate	5 g 2%
Dietary Fiber	1 g 4%
Total Sugars	1 g †
Includes 0 g Added Sugars	0%
Vitamin C (ascorbic acid)	60 mg 67%
Vitamin D (cholecalciferol)	27.5 mcg 138%
