NATURE'S SUNSHINE®

A newsletter celebrating the achievements of NSP Canada members.

July 2018 Vol 4/No 7

Summer is sensational for planting seeds of growth

Welcome to summer everyone! June was a fantastic month in Nature's Sunshine Canada! We had our weekly Lunch & Learns, a Steven Horne workshop and so much more happening across Canada. Keep sharing the word about our incredible product line that can transform people's health for the better.

We kicked off the month of June with an exciting workshop led by Steven Horne in Brampton on June 2nd. The topic was Basic Iridology and Herbal First Aid. We had 53 people in attendance and everyone loved listening to Steven share his knowledge (see photos below).

We were excited to welcome back a wonderful product, Perfect Eyes! This product is formulated to provide antioxidant support to the eyes. So many people can benefit from this product and we are excited to have it back in stock.

During the month of June we had an exciting promotion for Beat Your June and earn I-Inspire points. So many of you took advantage of this great promotion and jumped up the leaderboard for I-Inspire because of it. We also announced the location for the 2019 Trip – Caribbean Cruise aboard the Holland America's Oosterdam from April 6th – 13th, 2019. The ports of call are Key West, Florida; Amber Cove, Dominican Republic; Grand Turk, Turks & Caicos; and Half Moon Cay, Bahamas. It is going to be a fantastic trip and there is just over 5 months left to be in the Top 15 to attend the trip. During the month of July, we have a promotion going on for triple points for Sign ups over 101+ PV. Take advantage of this great promotion and climb the I-Inspire leaderboard.

We continue with our weekly Lunch & Learns and we have been receiving tremendous feedback from everyone on them. They are every Thursday at 12 noon EST for 15 minutes. If you can't make the live presentation, they are recorded and put on the website so everyone can access them. Feel free to share the recordings with your clients so they can also share in the knowledge of our amazing products.

Conference is coming up very quickly – October 18th -20th in Montreal. We are so excited to see everyone there. It is going to be a tremendous event! We have incredible speakers lined up for you as well as great education. The deadline for conference qualifications is July 31st (that is only a couple of weeks away). Do whatever you can to make sure you achieve the qualifications to attend for free. The question is: who are you going to bring with you to conference? We all know that it is a tremendous event and the impact it can have on someone's path with Nature's Sunshine. If you are driving to Montreal, how many people can you fit in your car? That trip can change people's lives forever. Start inviting people now to see if they can attend. It's worth the investment for them.

We look forward to having another strong month in July. Thank you for your continued efforts and commitment to NSP. Keep changing the world one person at a time.

Wishing you all the best,

Rhanca Trick

Director of Business Development

PROFILE of a CHAMPION

Lorene Benoit

"I started studying nutrition in the late 70s, to increase my energy while attending University and teaching full time. 1975 was a turning point in my life where I really questioned the medical model and started healing a chronic lung condition. That was the last time I ever took a prescription drug. In 1979 I studied Shiatsu at Wild Rose College. This course opened me up to the whole field of natural healing and I was hooked! I completed Herbal and Iridology certification in 1983.

"Teaching has always been my passion, so I started teaching herbal courses for College and community centres, then doing a few consultations. Living in the Yukon, it was difficult and time consuming to source quality herbs and make preparations. People didn't like the taste of teas, so compliance was poor. Already having an Education Degree, plus additional certifications, I decided I did not want to be a starving herbalist, making \$3 an hour encapsulating my own preparations. Sending people to the health food stores produced inconsistent results with clients. Not what I expected, as through my own healing, *I KNEW* herbs and natural healing techniques worked! So I spent the next 5 years seeking out a good commercial herbal company and thankfully discovered NSP!

"I'm also so thankful my husband supported me leaving a well paying government job to pursue my passion for helping others."

Why Nature's Sunshine?

"The education NSP offered attracted me to this company, as well as recommendations I had heard from U.S. practitioners. The body systems approach was the same format as my formal herbal studies and it made so much sense!

"Lots of things have kept us involved since 1990: the quality of education, the quality of products, the 'family' of staff and fellow Associates, and the wonderful affiliations with my clients, associates and managers.

"The beauty of this business is that we now travel at least 5 months a year, and can do this from anywhere, preferably where there is sun and tennis!

"If people commit to building their NSP business, they will be rewarded in many ways."

Your 3 keys to success:

1. "Listening to people."
2. "Sharing my passion and experience of all facets of natural health."
3. "Keeping in touch with and supporting my Managers and Associates to help them achieve their goals. What other business works this way? — the more you help someone in their business, the more it comes back to you."

Lorene Benoit

How I grow my NSP business

"I started by offering Herbal Hours to small groups. These were mini classes in my home office. This has now been made very simple for new Associates, with all the teaching tools, power points and webinars offered on the NSP website. The majority of our business has come through classes I have presented."

How I develop new Managers

"I support my Managers in whatever fashion they need: ideas, goal planning, confidence building, or financial planning. I present them with bite size pieces to understand the business and look for opportunities to explain when they are ready. I am there for them to answer questions. I am generous with praise and go to bat for them when they have challenges.

"As for my growth activities, they used to be classes I hosted and frequent newsletters. I love teaching, but after having organized classes for 35 years, I now teach for those who are willing to organize a group.

"I encourage new members to access the wonderful resources available on the NSP website.

"I have my own website, NaturalPath-Remedies.com, to promote my book on healing chronic conditions, published in 2010. I am slowly getting my 35 years of writing onto my research blog. I have a search bar so new Associates can check here first for answers. This has shifted my business from local to online clients, many from the U.S."

NATURE'S SUNSHINE® Leadership

Nature's Sunshine has always led the supplement industry in its dedication to quality, service, and integrity. We also strive to provide for our customers product availability they can rely on for their personal and business needs.

Reliability

The supplement market in Canada is regulated by laws and standards to protect the consumer from harmful or ineffective products. As a manufacturer, this means we have to register our products with the government and be given an NPN number in order to ensure their availability to consumers.

Availability

NSP Canada offers over 240 unique, high quality health products. Plus, easy ordering, reliable shipping, knowledgeable customer service, and a sustainable business opportunity for the Canadian alternative health entrepreneur.

Why More Protein?: Protein is a macronutrient, meaning you need lots of it. It builds and maintains lean muscle mass, strengthens the immune system, repairs damaged cells and tissues, manufactures hormones, and is a source of energy. For active individuals and aging adults, getting more quality protein helps maintain a healthy lifestyle. Protein powders offer an easy and convenient way to increase the amount and quality of your daily protein intake. The powders easily mix with liquids to create a shake or smoothie, or incorporate the powder into other foods like cereals, baked goods, yogurt or pudding.
