Millions live with arthritis pain daily

Arthritis is a general term that refers to *any* inflammatory condition of a joint. Over 4 million Canadians suffer from arthritis that affects people of all ages and physical conditions. Arthritis can strike the fingers, knees, elbows, hips, back, even the jaw — any place in the body where there's a joining of bones. It can also affect tendons and ligaments around the joint.

There are two forms of arthritis—osteoarthritis and rheumatoid arthritis (often just called rheumatism). Osteoarthritis, the most common form, is due to injury, over working, and age. Rheumatoid arthritis is an inflammatory joint condition, considered an autoimmune disease — one in which the body's immune system attacks itself. (Gout is another form of joint disease which affects mainly the big toe but sometimes other large joints as well, due to a build up of uric acid crystals.)

September is Arthritis Awareness Month

Don't let the pain of arthritis, tendons or ligaments slow you down. Herbal and nutritional aids can help you stay mobile and pain free

Use **ART-A with Devil's Claw** for the relief of minor joint pain due to osteoarthritis and for short-term relief of lower back pain. The herb, Devil's Claw, has a 250-year history of use among native South African tribes for the relief of pain due to rheumatism. The plant gets its name from the menacing claw-like appearance of its fruit. Also in this formula is white willow bark from which salicylic acid was first isolated to make Aspirin,[®] due to its analgesic and anti-inflammatory properties.

Devil's Claw fruit

EverFlex Analgesic Cream is a counter-irritant with anti-inflammatory and pain relieving properties. The penetrating action of EverFlex Analgesic Cream provides temporary relief of aches and pains of muscles and joints associated with backache, lumbago, strains, bruises, sprains and arthritic or rheumatic pain, and pain of tendons and ligaments. It is also useful for tired, aching muscles. Contains menthol, MSM and olive oil. Simply apply to area of pain to experience relief.
