

August 4th & 5th, 2020 6 to 8pm (EST)

## *The Energetics of Herbs and Essential Oils* with Steven Horne *DNM, RH*

### Achieve a new level in practical herbal and essential oil knowledge

**Workshop Description:** Move beyond a head-based understanding of herbs and essential oils to a sensory-intuitive understanding of how these remedies work. This hands-on workshop will take you on a sensory tour of Steven's energetic wheel as we discuss the 16 basic categories of essential oils and the 12 categories of herbs. You'll be feeling, smelling and tasting various herbs and smelling various essential oils, so that you can gain a practical understanding of their energetic categories.

We'll also talk about the cycles of nature, how the times of the day and the seasons of the year influence our health. This explains why we feel worse at some times of the day (or year) and better at others, and also helps us understand how to use herbs, especially the Chinese formulas, to keep us healthy during the various seasons.

A virtual live-streaming learning experience  
with one of the masters in Western and  
Chinese traditional medicines

*Steven Horne: Registered Master Herbalist,  
Chinese Herb Specialist, Iridologist, Doctor  
of Natural Medicine*
