IT'S NOT IF YOU'RE TOXIC, BUT HOW TOXIC ARE YOU?

It's a toxic world out there. We're exposed to 6 million pounds of mercury and 2.5 billion pounds of other toxins in our air, water and food supply each year!! Unfortunately, these toxins end up in our bodies. In fact, the Center for Disease Control found that the average person has 420 chemicals known to be highly harmful in their bodies. This toxic burden, in combination with poor diets and lifestyles, makes it extremely difficult for our bodies to function optimally.

DID YOU KNOW YOU'RE ONLY 10% "HUMAN"?

90% of the cells in our bodies are bacteria and other microbes. The toxins we are exposed to create a gut imbalance that allows bad bacteria to dominate the gut.

When this happens, endotoxins are released into the body, and they often impede critical health functions. This can affect almost every aspect of health, including immune function, blood sugar, weight, cardiovascular health, emotions, energy and more.

HOW DOES IT WORK?

When we focus on improving gut health, we can dramatically improve overall health and well-being. Purify 2.0 uses four scientifically formulated products to do just that.

UltraBiomeDTX supports the elimination of heavy metals. It helps purify the gut and balances beneficial bacteria. It also supports healthy intestinal permeability by strengthening and tightening cellular junctions.

Rejuvenaid produces superior levels of nitric oxide, which can improve energy production, physical stamina, brain circulation, healthy blood pressure and general blood flow.

Bacillus Coagulans provides friendly bacteria to nourish and strengthen the gut microbiome.

Love and Peas helps feed and strengthen the gut while building lean muscle mass (as part of a healthy diet and exercise program.) It also supports a healthy metabolism. (Other protein options are available.)

HERE'S THE SCIENCE TO BACK IT UP!

Clinical results show that Purify 2.0:

- Increases heavy metal elimination up to 76%
- Lowers gut inflammation by 35%
- Reduces cardiovascular risk by 22%, including improvements in blood pressure, triglycerides and cholesterol
- Improves liver function by 21%

Participants in the clinical study reported seeing benefits in as little as 7 days! They also noted a 42% improvement in their general health, energy and mental focus.

FEEL HEALTHIER, YOUNGER, MORE ENERGETIC

“Before starting Purify 2.0, I was in pretty good shape. But felt tired and sluggish. Now I have way more energy to play with my kids and enjoy life! My blood sugar levels and bad cholesterol (LDL) went way down, and my skin issues cleared up. Being healthy feels good mentally and physically.”

- Bryan R., Ohio
