

INTRODUCING **ROUND** SOUND

The original high-end small speaker

Our beautifully-designed spherical loudspeakers have long been the audiophile's choice in the 'compact' speaker category.

From our classic 4" Micro model - the original high-end small speaker, to the 5" A'Diva and high performance SE variants - these all-metal spheres are capable of producing a vast sound stage and pinpoint imaging, in a beautifully compact, visually attractive design.

GALLOACOUSTICS.COM

Add our powerful TR-3D subwoofer and an array of mounting options and it's easy to configure a system to fit your surroundings and audio aspirations, whether that be music, movies or multi-room audio.

Available in a choice of 11 stock colours, from subtle Urban Grey and vibrant Race Red, to the luxurious tones of our Gold and Bronze finishes.

For that special project, our SPECTRUM bespoke colour service opens up a world of possibilities from the Pantone and RAL colour systems.
