We are thrilled to invite you to the 13th annual **Fall Fashion Gala**. This much anticipated event is a highlight of the Company's fall performance period and an opportunity to witness groundbreaking new choreography and visionary collaborations between dancemakers and designers.

The gala program will feature a world premiere by distinguished choreographer **Jamar Roberts** with costumes by acclaimed fashion designer **Iris van Herpen** and music by Arca. This premiere will mark Roberts' third work for the Company, and van Herpen's second time presenting costume designs at the Fall Fashion Gala.

**Gianna Reisen's** *Composer's Holiday* will make a return to the Fall Fashion Gala stage, bringing energetic and fleet-footed dancing set to a violin and piano interpretation of Lukas Foss's *Three American Pieces* with costumes by Virgil Abloh of Off-White™. The program will also spotlight a Company favorite, **William Forsythe's** striking and inventive *Herman Schmerman Pas de Deux*, paired with an electronic score by his long-time collaborator Thom Willems and costumes by Gianni Versace.

We hope you will join us on Wednesday, October 8, for this extraordinary evening when the worlds of ballet and high fashion converge in a celebration of creativity, elegance, and artistic excellence.
