Treasurers report: Business checking: \$3,894.96, Scholarship account: \$2,687.12

Get Pumped account: \$1,104.74 1yr term CD account: \$6,467.56

Motion: 1st Pauli, 2nd Emi, no discussion Vote: passed

DES report by Wade:

- Discussed the required opening of the Env-Wq 800, the Sludge Regs.
- Mentioned Septic Smart week next week, to check out DES's social media posts
- Discussion ensued relative to some wwtps: Epping; unlikely to reopen to septic receiving for a long time, citing NPDES regulation troubles. Newmarket; now taking septage. N. Conway; restricting out of state septage as they have equipment problems. Portsmouth's Pierce Island plant also had some broken sludge equipment issues and are currently trucking solids to Pease.
- Mention of the new Residual Management Section Supervisor Mr Rene Boudoin

Emi expressed her concern that there are fewer places that accept porta potty waste, including a concern she believes there is a company claim to go a certain wwtps but don't actually go there. Emi also discussed her situation with the Town of Nottingham that are allowing a new neighbor to squeeze her fathers business, of over 50 yrs, off his home land, which includes her potties. So frustrating. Not sure there is anything or DES can do to help. Pete suggested a septic truck parade down Main St- :D

GOSWA, no report

Confined Entry Class in early 2026. Jan 14th was set, with a snow date of Jan 21st. Ray Bellemore has agreed to host once again in Goffstown. Sandra will contact and make plans with her contacts/ instructors. We NEED 20 participants. Target enrollment fees will be \$20.00-\$25.00 per participant. Mandie indicated she may have 7 participants. Sandra will work things up on her end. NHASH will get the word out, emails, and on social media to drum up the required 20 people.

Darlene discussed that Ashley has been working on content for Septic Smart week, so look it up and share on your pages. Ashley's been working on member spotlights, again, go to NHASH.com and share your spotlights to your social media/websites for more exposure. Thank you, Ashley for all that you do.

DJ discussed the email we received from ServiceCore. I think it was discussed that we ask Dan if he thinks its worth hearing from them. Attendees then said it wouldn't hurt to hear what they have to offer.

Adjourned meeting at 7:45pm(ish) 1st Emi, 2nd Paul J, passed
