

# Bolle Chandelier *Linear*

SALESHEET

**Inspired by a walk surrounded by a thousand soap bubbles floating in the air. Their lightness has become a metaphor for the crystallized immateriality of light.**

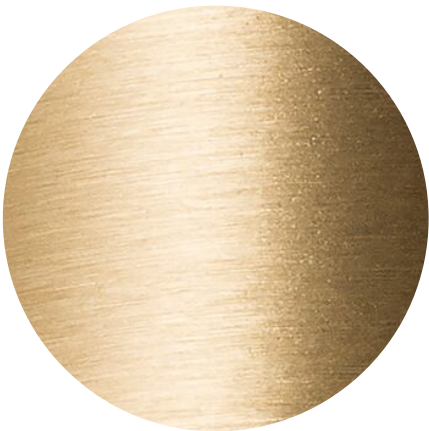

Handmade in transparent glass, where the illuminating core is a brass light source suspended between the spheres.

An effect of a thousand reflections, in which the light is soft and plays a linear zigzag movement. The light source is the proprietary Softspot, with its peculiar double-lighting structure. The overall lighting effect is soft without harsh shadows, valuing the luminous balance and the living space atmosphere.
