

# Bolle Chandelier *Linear*

**Inspired by the fleeting colourful  
dance of soap bubbles, each  
sphere becomes a suspended  
universe, vibrant and  
transparent, reflecting the world  
in infinite hues.**

The coloured glass is brought to life through the ancient technique of lustre, where metal oxides create shifting veils of iridescence.

An effect of a thousand reflections, in which the light is soft and plays a linear zigzag movement. The light source is the proprietary Softspot, with its peculiar double-lighting structure. The overall lighting effect is soft without harsh shadows, valuing the luminous balance and the living space atmosphere.
