

Soffio  
*Table*

**Soffio collection evolves from the Bolle series, magnifying the sense of suspension of the transparent glass sphere on the brass structure.**

The thin bubble appears to float in mid-air, and every Soffio creation enhances this perception. It's just one blow, but it has to be perfect.

A single lamp, a functional and ornamental accent that combines noble and pure materials. The light is warm and enchanting, creating a refined atmosphere in the space.

A single sphere of transparent glass, enhanced with maximum lightness and at the same time resistance thanks to the borosilicate glass material. Supported by brass with a proprietary Softspot light source, and by a base of pure Italian marble, with its organic or smooth texture and simple elegance. Different metal finishes available.
