Fiberglass Exterior Doors 31

Plastpro fiberglass doors offer the beauty and versatility of wood doors, but require less maintenance and have a longer lifespan. Our fiberglass doors are the best solution and are not susceptible to weather damage, require less maintenance, and offer higher performance ratings. We've introduced the first door with composite stiles and rails, HydroShield technology, and composite Polyfiber (PF) Frames to the industry. Our doors feature a full length LVL block that provides stronger rigidity. We carry a wide variety of designs, sizes, and styles that are bound to complement everyone's home.

Frameport® | Shaker Primed Doors with Privacy Glass

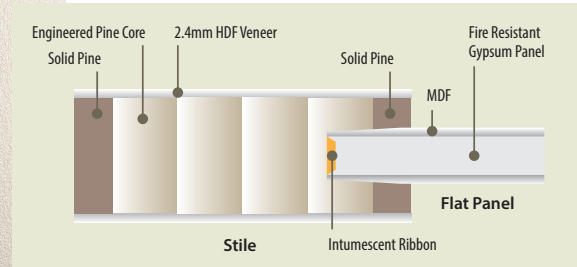

Shaker 20 Minute Fire Doors:

•Frameport 20 Minute Fire Door Slabs are certified through Intertek's Building Products Certification Program as compliant with UL 10C Standard for Positive Pressure Fire Tests of Door Assemblies.

•Flat Panel Doors are listed with Intertek under Spec # 51014.

•All Frameport Fire Doors are constructed with fire-resistant gypsum panels & intumescent ribbon to seal joints when exposed to open flame.

•1-3/4" thickness.

•Can be constructed up to 96" tall and 36" wide.

•Square sticking.

•Per NFPA 80 Standard for Fire Doors and Other Opening Protectives, maximum trimming allowed from the bottom of the doors is 3/4".

•Frameport Fire Door Slabs can be added to existing Fire Door System certifications – consult your certifying body for instructions.

•Environmentally friendly, FSC certified

•All doors are TSCA compliant.

•5-year limited warranty.

Quality Manufacturing: Certified:

Panel edges are kerfed and squeezed during panel insertion, allowing them to expand and grip the inside door frame, eliminating rattling. Stiles are manufactured to eliminate warp and feature solid wood 5/8" Edge Bands for trimming & sizing.

Manufactured with FSC Certified lumber harvested from sustainable Forest. All doors are TSCA compliant.

HDF (High Density Fiber) Veneer:

2.4mm veneer on style and rail (non-fire rated door only).

MDF Panel Thickness:

1-3/8 Door; 12mm primed MDF Panel. 1-3/4 Fire Door; 18mm Panel.

5 Year Limited Warranty:

NOVO Shaker doors have a 5-year limited warranty against manufacturing defects in material and workmanship.

Superior Finish:

Superior priming – four coats with sanding between coats. Panels and insides of stiles & rails are primed prior to assembly. The top and bottom of every slab door is factory-sealed with two coats of UV Activated polyacrylic varnish.

Style/Size Range:

A complete line of Shaker style doors in a broad range of panel configurations. Available in 1-3/8" and 1-3/4" thicknesses. Available in 6/8, and 8/0 heights.

TRIMLITE SHAKER | Primed Stiles:

These doors are factory primed and ready for paint. Let Trimlite help you create an interior look that will be a true reflection of your taste.

Stiles:

1/8" (3mm) of medium density fiberboard, longitudinally laminated by hot pressing with type 1 structural glue, as per ASTM-D5456-93, to particle board for a total width of 1-3/8". 1-3/4" doors have Fingerjoint wood construction stile.

Top, Bottom, & Mid-Rail:

1/8" (3mm) of medium density fiberboard, longitudinally laminated by hot pressing with type 1 structural glue, as per ASTM-D5456-93, to particle board for a total width of 1-3/8". 1-3/4" doors have Fingerjoint wood construction rails.

Stile & Rail Faces:

3mm (1/8") veneer of medium density fiberboard.

Lock Block:

Integrated.

Blocking

No additional blocking required.

Panel Thickness:

1/2" panel of medium density fiberboard.

Assembly:

Doors are assembled with dowel construction.

Finish:

Doors are primed and ready to finish.

Warranty:

5-Year Warranty.

- True Divided Lite Rails: 1-1/4"

TRIMLITE French Door Collection:

These doors are factory primed and ready for paint. Let Trimlite help you create an interior look that will give any space a classy presentation.

Stiles:

1/8" (3mm) of medium density fiberboard, longitudinally laminated by hot pressing with type 1 structural glue, as per ASTM-D5456-93, to finger-joint pine for a total width of 1-3/8" or 1-3/4".

Top, Bottom, & Mid-Rail:

1/8" (3mm) of medium density fiberboard, longitudinally laminated by hot pressing with type 1 structural glue, as per ASTM-D5456-93, to finger-joint pine for a total width of 1-3/8" or 1-3/4".

Stile & Rail Faces:

3mm (1/8") veneer of medium density fiberboard.

Lock Block: Integrated.

Blocking

No additional blocking required.

Glass Thickness:

1/8" Tempered Glass.

Assembly:

Doors are assembled with dowel construction.

Finish:

Doors are primed and ready to finish.

Warranty:

5-Year Warranty.

Wood Doors | Knotty Alder Doors

Deep rich grain will add to the beauty and style of any decor; colonial, ranch, traditional, modern-farmhouse and more.

FSC Certified:

Manufactured with FSC Certified lumber harvested from sustainable Forest.

Superior Veneer:

Manufactured with FULL 1/16" Veneers, this door's veneer will tolerate greater levels of wear and tear from both natural and foreign elements.

Color Match:

Our color match process involves hand sorting lumber and veneers to achieve the uniform consistency and beauty of a solid door.

3/4" Panels:

A thicker 3/4" panel gives our door greater depth and enhanced durability.

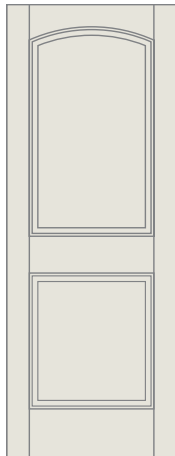

5-Year Warranty:

NOVO Alder door has a 5-year limited warranty against manufacturing defects in material and workmanship.

Patented HYDROSHIELD™ Technology:

Our exclusive HydroShield technology protects our doors against moisture and humidity infiltration, by creating a fully composite barrier that encases and protects the door on all six sides. It prevents warping, delamination, corrosion, rotting, and the buildup of mold and mildew. Our doors with HydroShield technology used with our Polyfiber (PF) Door Frames create an enhanced, impenetrable entryway.

Fiberglass Reinforced Door Skins:

Our exclusive formula is measured precisely to ensure each skin is produced to the highest quality. With unlimited design options, customized panel configurations are possible. The skins require little maintenance and will not splinter, dent, warp, rot, or rust. They can be painted, stained, and we provide a variety of graining options.

Full Length Composite Stiles:

Our full-length composite stiles protect the door from external moisture to prevent warping or rotting. They have twice the screw-holding strength of wood.

Composite Top & Bottom Rails:

High strength composite top and bottom rails prevent moisture from seeping into the door and stops the buildup of mold.

Extended Lock Block:

Plastpro's full length LVL allows any type of lock to be placed for increased security.

Polyurethane Foam Core:

Our advanced CFC-free, high density, Polyurethane foam core enhances the door's soundproofing capabilities and provides insulation up to six times greater than wood doors.

Backed by Warranty:

We are proud to offer one of the best warranties in the industry. Plastpro products are held to high standards. We stand behind our products and guarantee the best quality to meet your performance expectations.

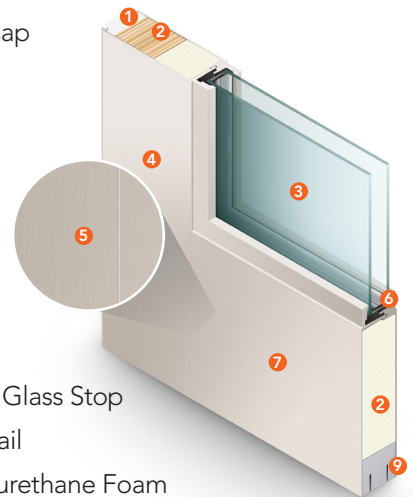

THE DOOR OF BEAUTY & INNOVATION

Nova 90 Full Lite Direct Glazed Low-E

General Information

Proper Door Finishing:

Follow manufacturer's instructions of finish products you choose. Make sure they are appropriate for the environment and conditions the door will be installed in. (i.e. indoor bathroom or laundry may include high moisture or humidity. Exterior doors must have exterior finishes.) All exposed door surfaces need finish applied including underside, top and both edges of door, plus any part of stile or rail that had to be trimmed for fit. Primed doors that have been trimmed must have exposed areas re-primed before finishes are to be applied.

Wood Doors

Follow manufacturer's instructions on amount of time interior wood doors need to be exposed to installed location environment before applying finishes. Use proper recommended finishes for exterior doors.

Warranty

Immediately inform your distributor of any obvious manufacturer defect or product damage so the dealer or distributor may take the appropriate action to rectify the situation for you.

Manufacturer warranties vary and apply to the construction of the door only. Warranties depend on proper finish application and installation; they do not cover third party finishes, hardware or accessories. Please contact your dealer or distributor for detailed warranty information.
