

Pre-Operative Instructions

- Do not have anything to eat or drink after midnight the night prior to your visit. This includes any mints, gum, candy, or water.
- If you take medication in the morning on a daily basis, your doctor will discuss them with you prior to your surgery, and instruct how to adjust them if indicated.
- If you are wearing any nail polish, acrylic, or gel nails, we ask that they please be removed prior to your surgery date.
- Lastly, you must have a driver on site with you during the entire duration of your surgery with an able vehicle. If patient is a minor, their driver must be a legal guardian.
