ABOUT US

We create opportunities for high-potential, low-income students to define their individual paths through high school, college, and career.

We're unique because:

We're Student-Led

We incorporate the student voice into all that we do, including selecting a new class and developing our program.

We Cultivate Wellness

Social and emotional health affects so many aspects of our daily lives, including college and career success. We help support families and remove barriers that keep students from reaching their goals.

We Develop Changemakers

We seek and support students who would like to make a difference in the lives of others.
