

NEW YORK STATE GIS ASSOCIATION

Recognition of

Individual Achievement in GIS

FINALIST

is hereby granted to

Jim Daly, GISP

Jim Daly has been the GIS Coordinator of Suffolk County for over a decade and an avid proponent of GIS for many more. He has been the driving force for the development of GIS technologies across the County. Jim is currently pursuing his MGIS degree from the Penn State World Campus Geospatial Program. For his capstone project he is developing an online subdivision and zoning web map application for local municipalities and residents. The purpose of the application would be to identify property subject to certain state and municipal subdivision and zoning laws based on proximity to environmental features and governmental jurisdictions.

In addition, Jim is a certified Geographic Information Systems Professional, the past president of the Long Island Geographic Information Systems User Group, and past member of the NY Geospatial Advisory Council.

It is with great pleasure that we recognize Jim Daly for his contributions to the GIS here in New York State.

Awarded: October 2017

Colin Reilly, President
