## **OFFICIAL MEMO 5th September 2021**

Supply Issues.

It has come to the NZRCA attention regarding possible supply issues for the 2021 onwards 21.5 Control Motor from R1 Works on social media platforms.

As the EP On-road Technical Officer I have contacted R1 Wurks Australasia Master Distributor RC Maker directly.

Like most other industries worldwide, R1 Motor Wurks is experiencing component and shipping delays caused by the Global Pandemic Covid 19.

RC Maker has assured NZRCA / me that the spec motor is on its way, there has been a delay outside of their control, and at this stage the stock is due into RC Maker by the end of September.

If there are any changes to these shipping times, I will update all concerned in another memo.

For those planning to race the EP On road Nationals at CMR. Please remember 2021 is a cross over year, and you are still able to use the motor ruling from 2020, (Refer to NZRCA Memo Dated 22 January 2021)

If you have any issues with the above, please contact myself directly.

Regards  
Darryl Maslin  
NZRCA EP On-road Technical Officer  
021 215 3397
