TECHNICAL SOLUTIONS | apctechnsafe

NZ Safety Blackwoods Technical Solutions provide a complete maintenance, calibration and repair service for gas detection equipment. Our Technical Solutions' workshop is fully equipped with the latest calibration equipment and staffed by our team of highly experienced factory authorised technicians.

SERVICES INCLUDE:

- Nationwide routine calibrations of fixed and portable gas detectors
- On-site calibration and servicing options
- Emergency repairs and calibrations
- Contract work and commissioning of new installations
- A comprehensive range of spare parts in stock
- Calibration certificates are issued with every instrument serviced
