Note: All pricing excludes freight and GST and is subject to change. Valid from April 2026. Local knowledge of the work environment and application is critical and of prime importance when selecting the appropriate gas monitor. Should work procedures/environment and/or plant change please consult with an HSE advisor. Additionally, the user of the equipment is responsible to undertake appropriate training, read and understand the user manual. Correct care use and maintenance is required for proper operation. *Bump Test Kit price is capped at 10 Days Hire. Bump Test Kit availability dependent on gases selected. Enquire for more information.
