

# Interim report

3rd quarter 2020 Unaudited

## **Interim report from the Board of Directors**

OBOS Boligkreditt AS ("The company") is registered in Oslo, and it is a wholly owned subsidiary of OBOS-banken. OBOS Boligkreditt started operations in 2016 and is licensed to operate as a mortgage company and to issue covered bonds. The company is OBOS-banken's most important source of long term market funding and an important part of the bank's funding strategy. Its assets consist of retail mortgage loans and housing co-operative loans originally underwritten by OBOS-banken. Total lending at third quarter end 2020 amounted to NOK 23 648 million. All loans are at the time of acquisition from the bank within 75 % of the property's estimated value. Total issued covered bond loans at September 30, 2020 amounted to NOK 20 090 million. Overcollateralization was at 117 %.

## Rating

All covered bonds issued by OBOS Boligkreditt AS have been assigned a Aaa-rating by Moody's.

### **Third quarter results**

The income statement and balance sheet are compared with last year's figures (in parenthesis).

The company's net interest income amounted to NOK 50.4 (29.4) million for the third quarter of 2020, up from NOK 11.9 million in the second quarter. The significant improvement was due to a sharp drop in 3m NIBOR, resulting in a corresponding reduction in financing costs. Total operating expenses amounted to NOK 1.6 (2.1) million. These expenses are mainly related to payments for banking services provided by the parent bank. Profit before loan losses and taxes was NOK 51.0 (27.9) million in the third quarter of 2020. Net loan losses were NOK -0.2 (-0.8) million. Profit after tax was NOK 39.6 million (21.1) in the third quarter of 2020.

No covered bonds matured during the quarter. OBOS Boligkreditt bought back NOK 100 million of ISIN NO 0010806870, which leaves the total remaining outstanding amount before maturity 5 October 2020 at NOK 70 million. OBOS Boligkreditt AS had seven bond loans outstanding at 30 September 2020 with total debt securities issued of NOK 20 090 million face value. This is up from seven bond loans and NOK 17 082 million face value outstanding at 30 September 2019.

Total assets at the end of the third quarter 2020 amounted to NOK 23 823 (19 363) million. Lending to customers amounted to NOK 23 648 (19 220) million. There are no substitute assets forming part of the cover pool. Overcollateralisation, calculated as the value of the cover pool relative to the value of outstanding covered bond loan debt, was 117,3 percent as at 30 September 2020. This is up from 112,0 percent at 30 September 2019. At third quarter end 2020, the mortgages in the cover pool had a weighted average loan-to-value ratio of 33 percent.

OBOS Boligkreditt AS' liquidity portfolio consisted of Liquidity Coverage Ratio (LCR) eligible assets of NOK 30.5 (30.7) million at 30 September 2020, resulting in a total LCR of 160 (197) percent.

## **Capital strength**

Total equity amounted to NOK 1 733 (1 435) million at September 30, 2020. Total own funds for the purposes of capital adequacy amounted to NOK 1 659 (1374) million. Risk weighted assets amounted to NOK 8 820 (6 973) million, the CET 1 capital ratio was 18.8 (19.7) percent. OBOS Boligkreditt AS uses the standardised approach to calculate capital requirements for credit risk.

### Macroeconomic development and outlook for the company

The corona pandemic led to a sharp setback in the Norwegian and international economy. However, the recovery is well underway and has risen faster than expected. Relief in infection-control measures throughout the summer has boosted economic activity, but the consequence for the time being seems to be another surge in the spread of the coronavirus. Infection rates are higher in several places in the country now than they were in the spring.

The market effects in the wake of Covid-19 were very strong in the first half of the year but have diminished somewhat through the spring and summer. Credit spreads in the bond markets have fallen further. Market pricing indicates expectations of very low interest rates for a long time. Norwegian money market interest rates are historically low, and mortgage rates are still declining. Activity in the housing market has picked up markedly, turnover has been high, and house prices have risen more than projected.

Unemployment levels have declined, but are still relatively high by Norwegian standards. The uncertainty about further recovery is still significant, not least in connection with the reintroduction of certain infection control measures. The effects of the pandemic and market uncertainty will therefore continue to characterize future developments.

OBOS Boligkreditt's portfolio has an average loan to value (LTV) ratio at a low 33 percent, and no loans are in default. With an allowable LTV of 75 percent, there is significant headroom for even severe drops in house prices. The parent bank holds significant volumes of loans which qualify for transfer to OBOS Boligkreditt. Should house prices decline and LTV ratios rise, replacement loans will be transferred.

The prospects for OBOS Boligkreditt remain stable. Lending margins have increased considerably. That, combined with good cost control and a low-risk loan portfolio with low loan losses, has resulted in an increased profitability in the third quarter. The level of profitability is expected to remain unchanged in the fourth quarter. The macroeconomic environment is improving. The Board is satisfied with the improvement of the macroeconomic environment and the increased profitability.

Oslo 27.10.2020

The Board of Directors of OBOS Boligkreditt AS

## Note 1 – Introduction

OBOS Boligkreditt AS is a fully owned subsidiary of OBOS-banken AS. The company was formally founded 13 May 2016, with the sole purpose of acquiring mortgages from OBOS-banken AS. The company will finance the business through the issuance of covered bonds. OBOS Boligkreditt received the required permit for operation from the Norwegian Financial Supervision 15 August 2016. OBOS Boligkreditt is registered and domiciled in Norway. The bank has business- and visiting address at Hammersborg Torg 1, 0129 Oslo.

### Note 2 – Accounting principles

The interim report for OBOS Boligkreditt has been prepared in accordance with IAS 34. The interim comprises the period 01.01.2020-30.09.2020 and has been prepared in accordance with simplified IFRS.

All amounts in the accounts and notes are stated in Norwegian kroner (NOK) unless otherwise specified. The company's functional currency is NOK.

### **IFRS 16 Leases**

According to IFRS 16 all leases should be reported on the balance sheet as assets and liabilities. Previous classification of leases as either operational or financial leases have been removed. All leases will be treated as financial leasing. Short-term leases (less than 12 months) and leasing of assets of low value are exempted from the requirements. IFRS 16 was implemented from 1 January 2019. The implementation does not have any effect on the accounts.

#### **IFRS 9 Financial Instruments**

OBOS Boligkreditt AS applies IFRS 9 for measurement of financial instruments. Financial assets and/or financial liabilities are reported on the balance sheet according to IFRS 9.

#### Derivatives

Derivatives are recorded at fair value at the time the derivative contracts are entered into, and are recognized at fair value through profit or loss subsequently. Derivatives are presented as a financial asset if the value is positive and as a financial liability if the value is negative. According to IFRS 9, an entity shall apply the hedge accounting requirements to a financial asset or a financial liability that is designated as a hedged item. OBOS Boligkreditt AS doesn't apply the hedge accounting requirements under IFRS 9, but applies interest rate swap agreements to reduce interest rate risk between fixed-rate and market rate. Swap interest rate and change in value are recognized through profit or loss under "Net gain/(loss) and change in value of financial instruments".

#### Net gain/loss on financial instruments

For interest bearing financial instruments that are measured at fair value, interest income is classified as "Interest income, fair value", and interest expense is classified as "Interest expense, fair value" with the exception of interest on derivatives. Interests paid and received in interest rate swap, as well as changes in accrued interest, are recognized as "Net gain/(loss) and change in value of financial instruments". Other changes in value of financial instruments are also recognized in this note.

The annual report for OBOS Boligkreditt 2019 gives a more detailed description of accounting principles used. The interim report is not audited.

## Note 3 – Accounting estimates and discretionary Assessments

OBOS Boligkreditt prepares accounting estimates and makes discretionary assessments based on historical experience, assumptions about the future and other factors. The accounting estimates are evaluated continuously and may deviate from the results achieved. However, they are based on the best estimate available at the time of the financial reporting. Below are the most important areas where accounting estimates and discretionary assessments are used and these may be subject to changes in capitalized values in future periods.

### 3.1 Value measurement at fair value

OBOS Boligkreditt estimates the fair value of their financial instruments, which are not listed in an active market, using valuation methods described in note 17 in annual report 2019 and the accounting principles. The credit institution's choice of method and associated assumptions are based on market conditions at the balance sheet date. Financial instruments comprise the credit institutions holdings of bond funds.

### 3.2 Write-down of financial assets

The method for measurement on write-downs for expected loss on financial assets in IFRS 9 depends on credit risk increase since initial recognition, instead of an incurred loss model as in IAS 39. The assets are divided into three stages, based on the credit impairment degree. At initial recognition, and if credit risk has not increased significantly, provision will be made for 12 months expected loss (stage 1). If the credit risk had increased significantly after initial recognition, but there is no objective evidence for loss, provision will be made for total lifetime (stage 2). If credit risk has increased significantly and there is objective evidence for loss, provision will be made for total lifetime (stage 3). In addition, the interest income for the financial assets under stage 3 will be calculated on net balance value of the loan, after deduction of write-down on expected loss over total lifetime. This is different from stage 1 and 2 where the interest income is calculated on gross balance value.

For a more detailed description of the method used for measurement on write-down, see the annual report 2019 note 2 and 8.

### Note 4 – Net interest and credit commission income

(Figures in NOK 1000)

| Net gain/(loss) and change in value on fixed rate covered bonds <sup>2</sup> | -1 199  | -5 610                  | -52 030 | -15 251 | 960    |
| Net gain/(loss) and change in value of financial                             |         |                         |         |         |        |
| instruments  | 2 239   | 677                     | 4 653   | 582     | 238    |

1) Net interest income (/expenses) from derivatives that have been entered into as hedging agreements against the ordinary portfolios of OBOS Boligkreditt's fixed rate covered bonds is classified as net gain/(loss) and change in value of financial instruments in accounting terms. Net interest income on derivatives is included in relevant key figures.

2) OBOS Boligkreditt has used the Fair Value Option (FVO) when valuing fixed rate covered bonds in accordance with IFRS 9. The principle implies that changes in value as a result of changes in own credit risk are recognized in the OBOSbanken group's comprehensive income. The amount that has been deducted from OBOS Boligkreditt's result and transferred to the Group is 0,3 million Norwegian kroner on 30 September 2020.

## Note 6 – Assets and liabilities measured at amortized cost

### (Figures in NOK 1000)

For all items booked at amortised cost, the book value is approximately equal to the fair value. This applies to the following balance sheet items: Loans to and receivables from credit institutions, Loans to and receivables from customers and Debt to credit institutions.

## Note 7 – Capital adequacy

## Note 8 – Assets and liabilities measured at fair value

### (Figures in NOK 1000)

OBOS Boligkreditt uses the following valuation hierarchy for financial instruments measured at fair value:

| Level 1: | Market price (non-adjusted) quoted in an active market for identical assets or liabilities.  |
|----------|--|
| Level 2: | Market price that is not listed, but is observable for assets or liabilities either directly (for example in the form of prices) or indirectly (for example derived from prices) |
| Level 3: | Information that is not based on observable market data.   |

There was no movement between level 1 and 2 during the periods.

#### Method for calculating fair value of financial instruments measured at fair value:

#### Certificates, bonds and debt securities

The bank obtains market prices and credit spreads from independent brokers in major financial institutions in order to calculate fair value.

#### Bond funds

The bank obtains the market value of fund units from the individual fund manager.

#### Financial derivatives

The fair value of financial derivatives is calculated based on discounted cash flows based on exchange rates and current interest rate curves at the balance sheet date.

See also the description provided in note 2: accounting policies.

| As at 30.09.2020   | Level 1 | Level 2                           | Level 3 | Total                             |

All bond loans are listed on the Nordic ABM stock exchange. They have a bullet structure and fall due in their entirety on the maturity date. See obos.no for further information and agreements on each of the above-mentioned bond loans.

1) The bonds are hedged from fixed to floating interest rates.

## Note 10 – Impairment and losses

## (Figures in NOK 1000)

Provisions for losses are calculated based on the expected credit loss (ECL) using the 3-step method in IFRS 9, as described in Note 3.

#### Changes in gross carrying amount

The table below shows changes in gross carrying amount to explain the significance of changes in loan provisions.

|  | Classification at first<br>time capitalisation<br>and fresh loans | Significant<br>increase in credit<br>risk since the<br>time of the first<br>capitalisation | Significant<br>increase in<br>credit risk<br>since the time<br>of the first<br>capitalisation<br>and objective<br>evidence of<br>loss |            |

| New loans  | 1 021   | 496  | -   | 1 517  |
| Disposal of loans                                | -720  | -344   | -1 770  | -2 834 |
| Confirmed losses                                 | -   | -  | -   | -      |
| Included in previously confirmed losses          | -   | -  | -   | -      |
| Change in risk model / parameters                | 937   | 793  | -   | 1 731  |
| Other changes                                    | -   | -  | -   | -      |
| ECL 30.09.2020                                   | 4 375   | 3 173  | -   | 7 549  |
| Provisions (%) of gross capitalised values       | 0,02 %  | 0,74 %   | ō   | 0,03 % |
| Net change (01.01.2020-30.09.2020)               | 703   | 1 062  | -1 770  | -5     |

#### Estimated Stage 1 losses on assets measured at fair value

The table below show changes in fair value and expected losses on loans to customers measured at fair value through profit or loss, which are reversed over other comprehensive income.

|                               | Stage 1 | Stage 2 | Stage 3 | Total |
|-------------------------------|---------|---------|---------|-------|
| Opening balance               | 3 673   | -       | -       | 3 673 |
| Net change in expected losses | 703     |         | -       | 703   |
| Closing balance               | 4 376   | -       | -       | 4 376 |

Net change in losses on stage 1 on loans measured at fair value, is reversed over other comprehensive income for OBOS Boligkreditt AS.

#### Breakdown of loan provisions per. segment and stage

The tables below show the provisions broken down by the various segments and the stages, as well as change in loan provisions during the period.

### Changes in gross carrying amount - Housing co-operatives segment

The table below shows changes in gross carrying amount to explain the significance of changes in loan provisions.

|  | Classification at first-<br>time capitalisation<br>and fresh loans | Significant<br>increase in credit<br>risk since the<br>time of the first<br>capitalisation | credit risk<br>since the time<br>of the first<br>capitalisation<br>and objective<br>evidence of<br>loss |            |
|--|--|--|---|------------|
|  | Expected loss over<br>12 months                                    | Expected loss<br>over the lifetime<br>of the instrument                                    | Expected loss<br>over the<br>lifetime of the<br>instrument  |            |
|  | Stage 1  | Stage 2  | Stage 3   | Total      |
| Gross carrying amount 01.01.2020                 | 13 231 377   | -  | -   | 13 231 377 |
| Migration to Stage 1                             | -  | -  | -   | -          |
| Migration to Stage 2                             | -  | -  | -   | -          |
| Migration to Stage 3                             | -  | -  | -   | -          |
| Changes in ECL for loans which have not migrated | -874 656   | -  | -   | -874 656   |
| New loans  | 4 628 680  | -  | -   | 4 628 680  |
| Disposal of loans                                | -  | -  | -   | -          |
| Confirmed losses                                 | -  | -  | -   | -          |
| Included in previously confirmed losses          | -  | -  | -   | -          |
| Change in risk model / parameters                | -  | -  | -   | -          |
| Other changes                                    | -  | -  | -   |            |
| Gross carrying amount 30.09.2020                 | 16 985 402   | -  | -   | 16 985 402 |

### Movements in provisions and write-downs - Housing co-operatives segment

The table below shows the loss provisions broken down by the various steps of the transition to IFRS 9 for the period.

|  | Classification at first-<br>time capitalisation<br>and fresh loans | Significant<br>increase in credit<br>risk since the<br>time of the first<br>capitalisation | credit risk<br>since the time<br>of the first<br>capitalisation<br>and objective<br>evidence of<br>loss |        |
|--|--|--|---|--------|
|  | Expected loss over<br>12 months                                    | Expected loss<br>over the lifetime<br>of the instrument                                    | Expected loss<br>over the<br>lifetime of the<br>instrument  |        |
|  | Stage 1  | Stage 2  | Stage 3   | Total  |
| ECL 01.01.2020                                   | 2 828  | -  | -   | 2 828  |
| Migration to Stage 1                             | -  | -  | -   | -      |
| Migration to Stage 2                             | -  | -  | -   | -      |
| Migration to Stage 3                             | -  | -  | -   | -      |
| Changes in ECL for loans which have not migrated | -61  | -  | -   | -61    |
| New loans  | 262  | -  | -   | 262    |
| Disposal of loans                                | -  | -  | -   | -      |
| Confirmed losses                                 | -  | -  | -   | -      |
| Included in previously confirmed losses          | -  | -  | -   | -      |
| Change in risk model / parameters                | 84   | -  | -   | 84     |
| Other changes                                    | -  | -  | -   | -      |
| ECL 30.09.2020                                   | 3 113  | -  | -   | 3 113  |
| Provisions (%) of gross capitalised values       | 0,02 %   | 0,00 %   | 0,00 %  | 0,02 % |
| Net change (01.01.2020-30.09.2020)               | 284  | _  |   | 285    |

#### Changes in gross carrying amount - Retail segment

The table below shows changes in gross carrying amount to explain the significance of changes in loan provisions.

| The table below shows changes in gross carrying and | time capitalisation increase in credit |   | time of the first since the time                           |            | Significant<br>increase in<br>credit risk<br>since the time<br>of the first<br>capitalisation<br>and objective<br>evidence of |  |
|---|--|---|--|------------|---|--|
|   | Expected loss over<br>12 months        | Expected loss<br>over the lifetime<br>of the instrument | Expected loss<br>over the<br>lifetime of the<br>instrument |            |   |  |
|   | Stage 1                                | Stage 2   | Stage 3  | Total      |   |  |
