

Amann Girrbach®

CAD/CAM Dental Tooling

Durable tooling with high precision to optimize tool life and productivity. OSG dental tooling guarantees ultimate quality for all your dental needs.

MATERIAL

Ultra Fine Grade Carbide for High Hardness and Strength.

GEOMETRY

Designed to Increase Strength and Tool Performance.

COATING

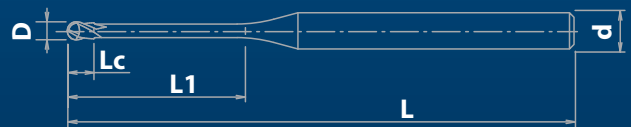

OSG's Proprietary Coatings are Engineered for Wear and Heat Resistance in all Dental Machined Materials

Request Your Tool by EDP

For Zirconia & Hybrid Ceramics								
EDP	Dia. (D)	Length of Cut (Lc)	Shank Dia. (d)	Overall Length (L)	Neck Length (L1)	No. of Flutes	End Cut	Coating
W1604840	0.6	1	3	47	12	2	Ball	DIA
W1604841	1.0	3			16			
W1604842	2.5	2			18			

For Titanium, Cobalt Chrome & All Metals								
EDP	Dia. (D)	Length of Cut (Lc)	Shank Dia. (d)	Overall Length (L)	Neck Length (L1)	No. of Flutes	End Cut	Coating
W1701698	1.0	2	3	47	17.5	2	Ball	WXL
W1701699	2.5	5			19.0
