Save time, improve your patients’ experience, and keep looking professional when seeing patients outside your clinic. The Height Adjustable Pylon enables you to quickly adjust the height, rotation, and angular alignment without cutting or grinding. Approved for definitive and preparatory use, available in adult and junior sizes, and included in the Össur Legs program.

“Saves me time during every patient visit, keeps me looking professional regardless of the setting, and I can use it on nearly every prep and definitive prosthesis.”

Chris DiGioia, CP, CFe
FEATURES & BENEFITS

• Quick and easy height, rotation and angular adjustments
• No cutting, grinding, hacksaw, pipe cutters, or deburring tool necessary
• Time savings for both patient and practitioner, no more “safety cuts”
• Eliminates wasted pylon scraps
• Maintain professional appearance when fitting at skilled nursing, rehab facilities and home visits
• Ideal for juniors, easily add built height as the amputee grows
• Included in Össur Legs packages

SPECIFICATIONS

• Designed, tested and approved for definitive use from K2 to K4 activity level
  • Testing Standard: ISO 10328 at A100 (PS) load level
  • Comparable weight to existing “pylon & tube clamp” assembly
  • 1 revolution = \(\frac{1}{16}\)” (1.25mm) of height adjustment

REIMBURSEMENT

Manufacturer’s Suggested Retail Pricing (MSRP):
$550.00

Suggested coding language:
L5999 – Addition, Lower Limb Prosthesis, Vertical Adjusting Pylon Feature
