

Yeshaya Perek 23

- A prophecy about the destruction of a city named Tzor:
- Note: the city of Tzor was a Phoenician port city. It's main commerce was through sea trade.
- The members of the surrounding coastal islands and residents of Tzidon will cry out when Tzor is destroyed. Note: Tzidon was also a port city that did commerce with Tzor.
- The sea will be saddened when boats no longer travel on it.
- Approximately seventy years after the destruction of Tzor, the residents of Tzor will return to it.
- At that time the residents of Tzor will recognize Hashem, the G-d of Israel.
