

כתובות דף קי"ב

POINTS TO PONDER

1. רש"י writes לסוף שנה mean at the end of a year. What is רש"י adding with these words? We all know that a year later means at the end of a year.
2. רש"י ד"ה על אחת משבעה writes that 7 times 70 is 490 and we should add up to 500. Why add specifically 10 more?
3. The גמרא says חנינא ורבי יוסי בר חלבו ור' עזריא traveled somewhere and they were given large fruit. They ate a third, they were מפקיר a third and they gave their animal a third. Why would they be מפקיר a third before giving some to their animal? Maybe the animal would eat more. Additionally, they should have given the animal first, like the גמרא says on the פסוק ואתם לא תאכלו מן הפירות ואתם לא תשבעו ונתת עשב בשדה לבהמתך ואכלת that the animal should be fed first.
4. רבי זירא was in a rush to cross a river and enter ארץ ישראל. When confronted by a צדוקי about it, he said that a land that משה ואהרן did not merit to enter who says that I will merit to enter. משה ואהרן we're punished because of מריבה מי and not because they didn't merit it?
5. The גמרא says חנניא ר' fixed the roads in ארץ ישראל. Isn't this something that should be done anywhere to prevent people from getting hurt?
