

Yechezkel Perek 27

Perek 27 is a lament on the city of Tyre.

In this dirge Tyre is compared to a great ship which was made using the finest “technology” of its day, having the greatest rowers, weapons, shields and masts.

The navi lists much of the merchandise that was found in Tyre including “t'chailes blue” and “argaman purple”.

The great cities of the world all engaged in trade with Tyre.

However Tyre will ultimately be destroyed and cease to exist.

The nations of the world will be astounded when they witness the downfall of Tyre.
