

Yechezkel Perek 31

Perek 31 is another prophecy against Egypt.

Egypt should have learned from the destruction of Ashur to mend their ways.

The Navi relates the original greatness of Ashur, contrasting it with how low they kept falling until their destruction.

Ashur had become filled with arrogance, thinking they were God. They were therefore destroyed.

Egypt, who is in a similar position as Ashur was, should have learned from Ashur, but they didn't. Therefore they, too, will be killed.
