

Yoel Perek 1

Note: see NachDaily introduction for background information on Yoel.

A plague of locusts will swarm the land.

There will be four different types of locusts - gazam, arbeh, yelek and chassil.

The plague will be like nothing anyone has ever seen before!

The locusts will cause a famine. After their descent onto the land no crops or grain will remain!

Yoel calls the kohanim and levi'im to dress in sackcloth and do teshuvah.

The devastation will be so bad that even the animals will cry out to God.
