P: WHAT'S NEW FOR '05?

BY RABBI SHMUEL SINGER

The OU has certified the Manischewitz matzah bakery in the United States for the past few years. For a long time this was the only OU matzah bakery in the world. It continues to be the only one in the United States. Other OP brands

such as Horowitz Margareten and Goodman's are all baked at Manischewitz. The OU has also agreed to place the <code>@p</code> on Aviv, Osem, Yehuda and Rishon matzah products coming from Israel. The items are supervised by local Rabbanim and are satisfactorily made with OU Pesach guidelines. They are certified by the OU when the <code>@p</code> appears on them. In addition, we have this year certified Yanovsky matzah baked in Argentina. This matzah is widely distributed in Latin America. This company manufactures various types of matzah. All matzah is always an eighteen minute product. Rabbi Daniel Oppenheimer of Buenos Aires serves as the OU rav hamachshir at this factory.

Manischewitz will again have a type of matzah ashirah known as grape matzah, in addition to traditional egg matzah. The grape matzah is made from flour and grape juice and may only be used when egg matzah is permitted, i.e. for Sefardim or those Ashkenazim who cannot eat regular matzah. It is so marked on the box. In addition, Manischewitz will have Passover Tam Tam crackers in various flavors as it did last year. These crackers are made from egg matzah dough and are similarly subject to the restrictions of matzah ashirah. They are clearly so labeled on the box. Manischewitz will continue to sell @p machine shmurah matzah under both the Manischewitz and Goodman's labels. In addition, OP hand shmurah matzah will be available from Gefen, Rokeach and Mishpacha. Kedem will be selling a new item called Matzah Sticks. This is matzah baked in stick form under the Savion label. Manischewitz makes a product known as matzah crackers. Both of these are ordinary matzah products and not matzah ashirah. The various Israeli OU matzah companies will all be selling machine shmurah matzah as well.

Kedem will again be selling Passover noodles with the Savion label, in various sizes. This product is made with matzah cake meal. Gefen has introduced Passover noodles made from potato starch. Flaum Appetizing will also be selling potato starch UP noodles. Frankel's also will again have frozen UP potato starch noodles. Frankel's has introduced a line of frozen foods including blintzes, waffles and pizza. All of these are made from potato starch. For the first time this year Macabee Pizza will be selling a frozen Passover pizza also made from potato starch. Dayenu will have frozen Passover pierogies, pizza, ravioli and pizzaroggies made with matzah meal. Kineret blintzes made from potato starch will also be available. This year King Kold of Chicago will be selling frozen OP items including matzah balls, potato pancakes and blintzes under the Ratner's label. These items are matzah meal based. King Kold has also introduced frozen potato kugel batter, potato pancake batter and matzah ball batter. The

Dr. Prager label will again appear with an @p on frozen potato and vegetable pancakes.

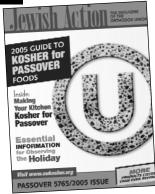

Gefen will again have crunchy tapioca snacks in various flavors. Manischewitz will continue with its traditional \mathbb{O} P soup nuts. Mishpacha will have soup nuts not made with matzah meal. Rokeach will continue with various potato items, such as pancake mix. Manischewitz will also have a full line of these items. Savion will once again have original potato crunchies and barbecue potato crunchies. Manischewitz will introduce a low sodium potato pancake mix and a low sodium matzah ball mix with the \mathbb{O} P symbol.

Savion will have two OP items introduced last year. These are couscous and granola mix. Both of them contain matzah meal. In addition, Savion will introduce OP cupcakes and cookies made with matzah meal. VIP will have UP macaroons and cookies available as bulk items. These contain no matzah meal. Manischewitz is introducing a new UP sugar free biscotti and sugar free macaroons, as well as sugar free cookies. The biscotti and cookies contain matzah meal. Mishpacha will introduce UP macaroons and kichel also made without matzah meal. Yehuda Passover marble cake, honey cake and chocolate cake will be available from Israel with an OP. These items are made from potato starch. In addition, Gefen will have a line of cake mixes all made without matzah meal. Similarly, the Le Tova Op line of baking mixes made from potato starch will be available. Savion will be selling cake mixes and muffin mixes made with matzah meal. Of course, Manischewitz and Rokeach will continue to have their traditional line of matzah meal based baking mixes.

PUBLICATIONS

The annual " Guide to Kosher for Passover Foods" is one of the most popular publications that the Orthodox Union brings to the Jewish public. Besides listing thousands of P products it contains the basic Halachos of Chag HaPesach and the Seder, the latest Pesach times and candle lighting times as well as a Sefiras HaOmer chart. The Passover Guides are distributed

in Pathmark and Shop-Rite Supermarkets and are available directly from the OU. For more information, synagogues should contact Roberta Levine at 212-613-8125 or email roberta@ou.org while other institutions, retail stores and individuals should contact Miriam Ganz at 212-613-8198 or email ganzm@ou.org.

WHAT'S NEW

continued from previous page

As in years past, potato chips will be made by Bloom's, Herr's, Utz, Pathmark, Rokeach and Manischewitz. Manischewitz will also have @P potato stix and sweet potato chips. Rokeach and Empress

will again have a full line of chocolate items for Pesach, as will Manischewitz, Krum's and Elite. Barton's continues as an [®] label and will have a full line of both dairy and pareve chocolate and candy items. As in years past Cyrk will have ice cream and ices with the [®]P label. Pesach ice cream sandwiches and ice cream cones will again be available under the Tovli label. Tovli will have ice cream and ice pops as well as plain cones with the [®]P label. Tovli will also have [®]P lemon wafers and chocolate wafers made without matzah meal. As in years past, pareve Pesach chocolate chips will be available with the Manischewitz and Bloom's labels. Mishpacha will also have [®]P chocolate chips. Tovli is producing pareve sorbet ice bars and ice cups in various fruit flavors with the [®]P label. Elyon will be selling [®]P marshmallows as in past years. In addition, Manischewitz will be selling [®]P marshmallows this year, as will Savion.

Manischewitz has kept the Season name on OP fish items which include tuna, sardines, salmon and anchovies. Season has introduced a number of new sardine items in various sauces for Pesach. All of these items are made with Mashgiach Temidi and bishul yisrael. In addition, the Season label will continue to appear on OP bamboo shoots and water chestnuts as well as some sauces and oil. Both Shoprite and Pathmark OP tuna fish will be available this year. In addition, Bumble Bee has

made a large OP production of tuna fish under its own label. Aside from this, tuna fish is available with an OP from Rokeach, Gefen and Mishpacha. All these items are made with Mashgiach Temidi and Bishul Yisrael. Dr. Praeger's continues to produce breaded fish fillets and fish sticks with an OP. These products contain no matzah meal.

The OU position remains that extra virgin olive oil can be used without special supervision for Pesach. In addition, Bartenura, Carmel, Gefen, Mishpacha and Season olive oil will be available with an OP label. Della Rosa grapeseed oil will again be available this year. This last product was made in Europe with the cooperation of various other supervisions. Mother's olive oil pan coating spray, Mishpacha olive oil spray and Manischewitz buttery safflower cooking spray, olive oil spray and olive oil garlic cooking sprays will also be available. Prepared olives with an OP will be available from Gefen, Osem, Kvuzat Yavne, Gilboa and Mishpacha.

The OU position remains that regular tea bags, which are not flavored or decaffeinated, are acceptable for Pesach without special supervision. In addition we have clarified once again this year that all Lipton decaffeinated tea bags are acceptable without special supervision. This is not true of other decaffeinated tea bags. Pathmark, Shoprite and Lipton also have specially marked OP plain tea bags on the market. This year Manischewitz has introduced a line of OU-P tea bags. These include regular tea and herbal teas. In addition Swee-Touch-Nee and Wissotsky will continue to have Pesach herbal teas. Nestea instant unflavored tea powder and instant unflavored decaffeinated tea powder are acceptable for Pesach without special supervision. Our position in former years in regard to coffee had been similar to tea. We maintained that all regular coffee, that is unflavored and not decaffeinated, is acceptable for Pesach without supervision. This is no longer true. Some coffee companies add maltodextrin, which is either chametz or kitniyos, to instant coffee. As a result this coffee is not kosher for Passover. Only coffee bearing an \bigcirc P symbol or brands listed in the gray area of the Passover Directory should be used. Both Folger's and Taster's Choice instant coffee remain acceptable. Other brands should be checked in the Directory. Ground coffee remains acceptable from any source as long as it is unflavored and not decaffeinated.

This year a number of supermarket labels will have p flavored seltzers for Pesach. These include Acme, America's Choice, Foodtown, King Kullen, Pathmark, Shoprite and White Rose. Cornell will have flavored sodas with an p. This year both Shoprite and Pathmark will once again be selling some sugared sodas with an p symbol.

Coca Cola will again be available with an @P for Pesach. Aside from the New York metropolitan area, Coke will be available in Boston, Baltimore-Washington, Miami, Atlanta, Houston, Philadelphia, and Los Angeles. This year, in New York, Coca Cola items will be made with an @P in 2 liter bottles and in cans. Other locations will have more limited Coke items made in dif-

ferent sizes. All these items, of course, require the @p symbol. Most of the bottling plants servicing these markets will designate the Passover Coke items with a distinctive yellow cap in addition to the @p symbol on the cap or shoulder of the bottle.

Kedem continues to bottle grape juice under its own name as well as under the Savion, Gefen and Lipschutz labels. All these items have always been

and will continue to be Mevushal. Kedem has one not Mevushal grape juice. This is bottled in 1.5 liter glass bottles and clearly labeled Non-Mevushal. In addition, Rokeach will have its own ©P grape juice. This will appear under the Rokeach label, as well as the Mishpacha labels. Manischewitz will once again have an ©P grape juice under its own label. Both Rokeach and Kedem will offer a variety of ©P Sparkling Grape Juices. All these grape juices are Mevushal. In addition, Rokeach will again produce a variety of ©P cooking wines.

There have been a number of new developments in the dairy field for Pesach. This year the <code>@p</code> will appear on various Cholov Yisroel dairy products. These include milk from Ahava with the Best Moo label as well as yogurt from Ahava with the Slim U label. A new OU company Dairy Delight will be selling sour cream and yogurt under the Norman's label. In addition, Norman's will also sell Cholov Yisroel <code>@p</code> hard cheese will appear for the first time this year under both the Norman's label and the Kirkeby label. The Kirkeby cheeses are imported from Europe and also carry the London Beth Din hechsher.

Excerpts from Shabbos Greetings for the week of February 4, 2005

BY RABBI DR. TZVI HERSH WEINREB OU Executive Vice President Reprinted with permission

On Tuesday of this week (Feb. 1/05), the Science Health section of The New York Times reported on OU Kosher's recent certification of Triaminic cough syrup for children, calling the OU a "coveted seal of approval." With a large photo of Rabbi Eliyahu Safran, who was responsible for bringing the manufacturer, Novartis, into the OU family, the article was a clear endorsement of the popularity and credibility of the OU.

Information for Kosher Travelers

Domestic flights in the United States no longer serve meals. Most airlines have food available for purchase; however there is no guarantee that a specific flight is carrying Kosher food. We advise all Kosher travelers to pack their own food.

If someone booked a ticket online before February 1st and ordered a Kosher meal, they may not find out about the change until they are on the plane.

If you are aware of such an individual please inform them of this change in airline policy.
