

THE PERFD OG POST

SELF-SERVICE SOFTWARE

PerfDog has always intended to be self-service software -- it's been our goal since we began in 2015.

Last month, we changed our home page, adding links and information so event administrators can open and set up their own events without contacting PerfDog.

This month's update includes the rollout of our automated event finalization.

Expect more automations in 2023!

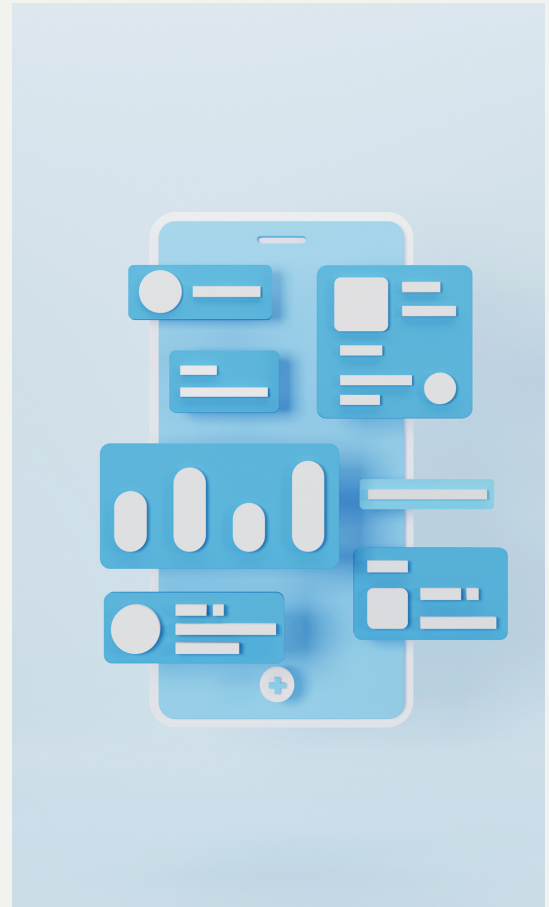

MORE EMAIL IMPROVEMENTS!

Entrants are now notified within the app when they aren't receiving event-related emails.

New features for event admins!

Premium reviewer

You can now override the automatic Premium Reviewer and take responsibility for any errors that may be in your Premium List.

Email log

View a simple email log under **Manage** to see if entrants received event related emails.
